**Attachments:** IMG\_4848.jpg 

All - just a heads up that Jack Chiles has been posing online with different names. I propose that all online speakers be required to show a live picture in order to speak. Jack Chiles has been doxxing parents, posting aggressive, hostile and harassing comments online to cause strife in our community. Jack is connected to at least one RRISD employee that has also been engaging in unethical behavior not only in RRISD but LISD. It's notable that trustee Harrison is associated to Jack Chiles not only personally but follows his Tuxedo\_Jack Twitter account. I find it ironic that she supports a no hate resolution while simultaneously engaging with people like Jack Chiles.

It's also notable that after an Asian woman was assaulted outside a board meeting, nothing happened. Multiple emails went out to the board, superintendent and chief of police but all went without any action. Further, trustee Xiao did nothing to condemn this behavior. Until the board leadership stands up to all issues of violence and harassment then the trolls will continue to act without impunity.

Thank you  
Ricci
