I have not received any response regarding this email. I feel these incidents are not being taken seriously by the administration. I will be attending the meeting tonight and honestly do not feel safe. The RRISD police department is there to ensure the safety of everyone, not just the board. I have not received the report numbers nor copies of the video I requested via email. In fact, I have not even received a notification from legal they have received my open records request. This information is needed to submit to the Cedar Park police department to assist in my complaint of online harassment.

I would appreciate some assurance these instances that were reported not only to RRISD police but cedar park police are being handled urgently.

Hello Mr O'Neil,

I have not been contacted by the board president about putting together a board response to your valid questions. I can only speak for myself as I don't speak for the entire board.

Attached below you will see the announcement that as of 1 Sep 2021, the Texas Open Meetings Act was back in full effect. Governor Abbott had previously signed an Exec Order in July 2020 that allowed governmental bodies (including school boards) to waive (not follow) parts of the Texas Open Meetings Act due to Covid concerns. But as of Sep 1, all of that ended. The Texas Open Meetings Act states that the public must have full access to board meetings. I peacefully left the 14 Sep 2021 RRISD board meeting because the school police were used to prevent members of the public from entering our meeting. I had no other way of expressing my opposition to keeping folks out of our meeting. Only 18 members of the public were allowed in. The room accommodates 300. I was concerned that this was inconsistent with the requirements of the Texas Open Meetings Act and that's why I left that meeting after just 28 minutes. The great thing about our meetings is that they are recorded and on the district website so there is no question about what happened in that meeting.

Of note, after that 14 Sep meeting, Covid cases continued to climb locally but RRISD abandoned the seating restrictions it imposed in the 14 Sep meeting. Since that 14 Sep meeting that I walked out of, all persons seeking entry to our meetings have been allowed in. Folks can draw their own conclusions about this and the implications regarding that 14 Sep meeting.

Anyone can watch our meetings on the district website and open records requests for documents (emails and other documents) can be sent to open_records@roundrockisd.org

Subject: Fox News Media Request: Parents arrested in district

This is Tyler O'Neil, digital editor at Fox News. I am writing a story following up on the reported arrests of two fathers in the school district who face charges of disorderly conduct at school board meetings. One of the cases involves a sexual assault claim against Superintendent Azaiez (and claims that members of the school board helped cover up/enable the alleged assault) and the other involves claims that the school board unlawfully shut parents out of a meeting using district police.

(<https://www.ktvn.com/story/45018923/minister-and-army-captain-unlawfully-put-in-jail-by-school-district-while-board-members-and-superintendent-continue-coverup-tonight>)

How does the school board respond to these claims? Would the school board defend the arrests? It seems unusual for a school district to have its own police force. Would members of the board explain the need for the school district police force? Would you recommend it for other school districts? How would the board respond to claims that the district appears to have used the police to silence concerned parents?

My deadline on this story is 5 pm Eastern time today, so I would appreciate a prompt response.

Best,

Tyler O'Neil

Can someone fill me in on what is going on? If someone was assaulted during the 10/21/2021 board meeting, shouldn't the board be briefed? Is the victim ok?!?

And is someone getting back with Ms Nelson on her questions and concerns?

If so, I didn't realize we were talking about a sexual assault. If the administration thinks it's appropriate, I'd like to see the students (who stopped the attack because they approached the perpetrator) recognized for their heroism either at a board meeting or another forum that makes sense.

Mrs. Salinas,

First, thank you for your family's service to our country! I am truly humbled by your husband's service and words can never express my deep appreciation for our military. I attend our school's Veteran Day ceremonies every year and am taken away at what the students learn and how many military families we have in our community.

In our September board meeting it was explained that each principal could determine who was allowed on their campus. I was not aware until last week that normal on campus Veteran Day ceremonies would not be held in person. I hope there is still time to change this and make it right so I have included our Superintendent Dr. Azaiez so he can address this.

Many blessings to your family for the service to our country.

Best Regards,
Mary Bone

Mrs Salinas,

I appreciate your e-mail. I was at Dragon Stadium last night for the Round Rock HS football game. Four different people confronted me (three of whom I have never met before) asking why veterans are not allowed on campuses for Veteran's Day.

In addition, your e-mail is not the first the board and superintendent have received asking about this.

I wish I knew or could get answers about what seems to be the many prohibitions on parents and now veterans being denied access to our schools. Student enrollment in RRISD is already down 3,000. I have always believed and showed through my actions as a volunteer and my votes as a trustee that parents and veterans are partners in education in our schools. I worry that pushing parents and now veterans out of our schools not only deprives students and the community of important opportunities, but it will continue to erode enrollment and confidence in public education.

There is no lack of clarity from me to the superintendent or board president on where I stand on this.

Please let me know what responses you get from the superintendent, administrators and other trustees.

Dr. Presley,

I am following up again on my request. I would like to have the video I have requested, or an answer as to why it does not exist. I have been extremely patient, but no one will give any answers. Since December, I have asked for video surveillance related to a safety and security concern, only to be met with silence. Dr. Azaiez told me in person at the December regular board meeting that it did exist and that he would have Chief Yarbrough and the video folks provide me what I had asked for.

Since October I have asked the RRISD PD to identify the man that committed the assault and harrasment that I reported to RRISD PD so that I can file a protective order, and my request has been met with silence. I gave RRISD PD photo evidence and two names of women that the man associated with that evening that could easily identify him, but I still have not received a name, and continue to be met with silence. Ignoring my requests, and the lack of action by RRISD PD and the district continue to put the safety of the community at risk.

How many more assaults and intimidating threats does that man need to commit before the RRISD PD and RRISD take action?

Respectfully,

Dustin Clark

I think the concern is that the police dept told him the video does not exist which isn't true. I could be misremembering that. I think a phone call to him would be helpful and good customer service to clear things up. Just my thoughts. This video is a high interest item for obvious reasons and I don't see the interest in obtaining it going away.

RRISD Leaders,

It has been over a week since I requested this group's assistance in gaining understanding as to why the video surveillance of assault and harassment incidents during the 10/21/21 board meeting seem to be missing. This is a matter of public safety and missing evidence of a crime committed inside of Round Rock High School.

I have included Chief Yarbrough in hopes that maybe he can explain the missing video surveillance footage that we asked him to preserve, and that Chief Marquez assured us would be preserved.

I am hoping that the response we received from the Open Records team is in error, and that this group of leaders will work with us on this matter. If not, we will revisit our approach in shedding light on what happened to this video footage.

Board of Trustees,

We have a significant breakdown in security, safety, and evidence chain of custody that needs to be addressed immediately. I made a similar request for the video surveillance footage of the assault and harassment incident that occurred 10/21 board meeting, and the open records team has informed me that it does not exist (see below). I have seen the cameras in that hallway, and at the entrance of bldg 100, so they do exist.

I asked Chief Yarbrough on 10/25 to be sure the video evidence was preserved. When we met with Officer Marquez on 10/29 to make this report, we asked about the length of time that video surveillance is stored. I audio recorded our entire conversation with Officer Marquez (with his knowledge), and below is some of the transcript in regards to preserving video surveillance of a reported crime.

Officer Marquez was asked the following:

Ricci Nelson: "By filling this out [the police report], will it ensure that you preserve any video that you have?"

Officer Luis Marquez: "Oh, yeah. Yes ma'am. We have to attach whatever video there is [to the report]. We would download that video and preserve it and add that to our evidence cloud, and it's attached to the case and class C offenses will usually stay on for, I believe, about, since it's an assault, about two years."

Based on the Open Records Team's response, and the response from Officer Marquez, I have some

questions I would like to have answered.

- 1) Why is there no responsive information [stored video] regarding our request?
- 2) Are the specified cameras operational?
- 3) If the cameras are operational, did Chief Yarbrough/RRISD PD not preserve the video evidence of the crime as requested?
- 4) If the cameras are not operational, why not and how long have they not been operational?
- 5) Was the video overwritten?
- 6) What is the RRISD video surveillance storage policy?

Respectfully,

Dustin Clark

What post on Facebook? What are you talking about? I get it that the boy who walked into the restroom and witnessed the rape doesn't want to talk about it or give statements to law enforcement or administration after he told his mom what he saw and she and others reported it. I also understand that those involved are either not identified, or are not interested in talking to law enforcement either, and no victim is coming forward. That doesn't change the facts about what happened. You should be seeking to find out exactly what happened, how it happened, why it happened, while completely protecting the witness's privacy and gathering as much information as you possibly can from him so as to LEARN how to PROTECT the rest of the student body from this occurring again. And EVEN IF it turns out that this girl was being "fingered" in the restroom consensually by these 8 boys, THAT is still completely unacceptable on a school campus and needs to be investigated. Just because no one wants to talk now, doesn't mean it didn't happen, and you're absolved of your responsibilities.

Do NOT ever, and I mean EVER, accost my daughter like that and then not provide ME and HER with a full and complete accounting of events of precisely what led up to such an inappropriate action.

Ms. Kim,

Since yesterday, I've been trying to reconcile in my mind HOW we got from **Point A** (*my daughter crying in a restroom stall because of an ex-friend emotionally abusing her at school*) to seemingly unrelated **Point B** (*my daughter randomly and absurdly accused by an AP, without ANY evidence, of a homosexual rendezvous in the girls' restroom with a female friend who was consoling her while crying, and then both girls sent to the office for a referral*). But then no actual disciplinary referral follow through is happening apparently, and no explanation provided to account for this odd accusation and accostment of my daughter in the restroom by a school administrator? Like seriously?? HOW did we get here? This has made little to no sense to me since I was first informed of the bizarre situation yesterday.

I have now encountered information that I suspect may be the missing piece to this nonsensical puzzle. As a parent, I have a *RIGHT* to know whether the information I have encountered is true or false. I do *not* have a right to know the identity of the individuals involved, however, I most assuredly have a right to know whether a **gang rape/sexual assault/or some type of sexual encounter took place recently in a CRHS restroom involving 8 boys and 1 girl**. Did this happen, yes or no? From multiple sources *who would know*, I'm being told, YES, this DID HAPPEN.

This involves MY child's safety and I expect an answer to my question IMMEDIATELY. My question: Did a sexual assault of some sort very recently take place in a CRHS restroom, which then prompted a heightened administrator response to monitoring the goings-on in the restroom? Is THIS how MY daughter became inadvertently involved in this strange situation in the first place? Bottom line, did a rape or sexual assault recently occur in a CRHS restroom, *yes or no*?

If I don't receive a prompt reply to this message, or my questions above are ignored, I shall be dialing 911 to file a report, and assuming that there is imminent danger at CRHS. Please reply immediately with a full accounting of the FACTS minus the names of the specific individuals whose privacy rights are protected. YOU drug MY child into this situation, TELL ME WHY, and WHAT is actually going on.

It's unacceptable, and you and I, and others at CRHS, will be in further communications about this matter as needed. My hope is that the abuse ENDS today, done. I've heard bits and pieces over time about his troubled family life, mainly that his dad walked out on his family and literally abandoned them. He occasionally waltzes back into town and tries to do "fatherly" things, but always on his terms. I'm sharing this with you to give context to the situation when I say that XXXXXXXX is emotionally abusive to other kids. I have no doubt that he's doing what has been done to him because it's what he knows. Often abuse victims abuse others, that's the cycle of abuse. Anyway, I've been hearing about the abuse toward XXXXXXXX from XXXXXXXX for a while now, and I'm about done with it, and I think XXXXXXXX is too. She's tried many times to reconcile his friendship and it sounds as though he repeatedly violates her trust and her attempts to forgive him and give him another chance to be a friend. At this point, XXXXXXXX and I both agree that it's time to 100% BLOCK him from EVERY aspect of her life. XXXXXXXX comes from a healthy, abuse-free home and has had tremendous difficulty processing and understanding his bi-polar like behavior. I have told XXXXXXXX that he is emotionally ABUSIVE and she needs to NOT be friends with him AT ALL from this point forward. Done. She agrees. Anyway, as an AP, your concern here should be THIS situation, and WHY my daughter was crying in the first place, not some bizarro figment of some teacher's perverted imagination. Thank you.

She was in a bathroom stall with another girl (who is a friend that was consoling her) for privacy from others in the restroom while crying and trying to collect herself before giving a presentation in her AP Spanish class, which she did complete and gave the presentation. She says she was then accused of "making out" with this girl, who was consoling her while crying and sent to your office. 🤔 What?! She says the teacher was at no point in the stall and therefore would have nothing factual to base her accusation, it's a pure figment of her imagination.

If this is going to be taken beyond the ridiculous events of today, I need to know, please, thank you. She told me she may be getting a "referral" because this teacher, I guess, thinks she's homosexual and having sexual rendezvous in the restroom?

Do I have this right?

Good afternoon Mr. Black,

Firstly, thank you for coming to Round Rock ISD to monitor our Board of Trustees. As I'm sure you're aware, our district and its elected trustees are at the center of quite a few controversies and I'm optimistic that close guidance will help right the ship, so to speak.

Second, I have a question about the ethical guidelines as they related to elected Trustees' use of social media on their official candidate/official pages. Below you will see a screen shot from Dr. Jun Xiao's Trustee Facebook page in which he links a website, additional screen shots from that site are also linked. The website solicits donations for a political candidate for Texas Legislature, and Dr. Xiao appears to be supporting or endorsing this site. Is this an ethical violation, in your professional opinion.

To put it further into context, the person the runs that website is linked to an alleged assault on 10/21 and serious claims of online bullying/harassment of community members/trustee Bone/trustee Westin. The online harassment was so bad I had to file a police report and fear for my personal safety. These concerns have been reported to the board, superintendent and Chief Yarbrough but no action or investigation has been taken. Myself and Dustin Clark did an open records request for video of the alleged assault shortly after the encounter but we're just informed nearly twice months later that no video was available. We both reached out to the same group mentioned above asking for an explanation and again silence. Was it deleted? Are the cameras not operational? What are they hiding?

With all the being said, I'm requesting a censure of trustee Xiao, deleting of the fb post and a public apology that explains his violations of his code of ethics. I will be following up with a level 3 complaint with rrisd, tea and Texas ethics commission complaints as I'm confident trustee Xiao violated campaign finance laws as well.

I look forward to your prompt reply,

President Weir,

Please let me know what steps you will be taking to ensure that Trustees are provided a safe environment to perform district business. Trustee Xiao's repeated attacks are directed at Weston and I currently but I will remind you that on March 4th Xiao got up from his seat and physically got directly in the face of Trustee Harrison. This continued pattern of behavior can not be allowed to continue. Last night Trustee Vessa had to physically get up and was trying to get Xiao to leave the room when he showed no ability to control his words or actions. His arms were waving recklessly in the air and I noticed Trustee Harrison even physically moved away so she wouldn't get in his way. His yelling fits are absolutely not appropriate. When I asked for a point of order during his yelling fit Xiao could not stop himself and you nor any other Trustee were able to get him to stop so that I could ask my question. If the board is going to allow yelling fits please let me know. Last night I personally noted FIVE different times Xiao yelled at us, when will this stop?

Again please let me know how this pattern of extremely concerning behavior is going to be addressed? I believe Trustee Weston pointed out the appropriate board policy and operating procedure. I will also remind you that you keep saying that Trustee Weston and I have not been discriminated against or treated differently but neither of us have demonstrated this uncontrolled dangerous pattern of behavior. It appears to me that you and others are tolerating this inappropriate behavior of Xiao to maintain the voting alliance of the five including yourself.

Pres Weir,

I must memorialize the on-going inappropriate behavior of Trustee Jun Xiao and the complicity of the other board members in our 3 hour closed session meeting tonight. My husband and I spoke late this evening at length about Xiao's threatening behavior towards me. I believe action to ensure safety is now required.

On multiple occasions tonight, Xiao flailed his arms, raised his voice at me and blurted out too many inappropriate statements to count. I calmly objected over and over and Trustee Mary Bone stood alone in addressing him and insisting he stop during the first two hours of our meeting. I was even subjected to Trustee Amber Feller dismissing my concerns and asserting that Xiao has a first amendment right to say whatever he wants to me. It wasn't until the 3rd hour of the meeting when the lawyer, Joey Moore, became uncomfortable with Xiao's aggressive behavior that other trustees besides just Bone made comments to Xiao to stop. Trustee Cory Vessa even stood up and tried to talk Xiao into stepping out of the room.

From BBF local (board policy on ETHICS) attached to this email : "I will not physically or verbally threaten or intimidate another Trustee or staff member on or off school property."

Oftentimes his behavior is captured on video in open session (most recently in the 6 Nov 2021 meeting). But tonight was in closed session so it wasn't captured on video.

I have now been repeatedly traumatized and made to feel unsafe by Xiao. He needs to be seated away from Bone and I at the dais. This is not complicated and needs to happen immediately. Can you take care of this Pres Weir or do we need an agenda item in the 18 Nov mtg and put the seating arrangement up for a vote?

In addition, from page 9 of the Board Operating Procedures (attached to this email) is below.

K. Board Sanctions Trustees are expected to comply with Board Operating Procedures, Board Policy, and other best practices to serve the best interests of the District.

In the event a Trustee violates the Board operating procedures and/or Board policy, the Board may choose: 1. To post an item for discussion regarding the Trustee on an upcoming Board agenda in closed session. During the closed session, Trustees shall discuss the concern with the Trustee, attempt to gain greater understanding, and try to resolve the matter. 2. If the Trustee continues to violate Board operating procedures and/or Board policy the Board shall place the discussion of the Trustee on another Board agenda in closed session. At this meeting, the Board may choose in open session to direct the Trustee to receive additional training designed to address the specific issue. 3. Following a third violation of Board operating procedures or Board policy, the Board: a. May choose to issue a public censure at a legally called Board meeting in open session. The censure will consist of a calmly worded statement describing the inappropriate behavior of the Trustee, an explanation of the desired behavior, and a statement of agreement by a majority of the Trustees that the behavior is inappropriate, and/or Round Rock ISD 10 Board Operating Procedures b. May choose to remove the Trustee from any Board-appointed or elected officer position or responsibility, from membership or chairmanship of a Board committee, and/or from appointment to positions outside the Board as a District representative. 4. If a Trustee violates the Board operating procedures or Board policy a fourth time, the Board of trustees may: a. Vote to withhold financial resources from the offending Trustee, such as disallowance of reimbursement for attendance at out-of-town conventions, seminars, or other District related travel, and/or b. In extreme situations, may agree to ask the offending Trustee to resign

I would never seek to deny Xiao due process so it's important we follow the process for sanction. I know of no other way to address this behavior than to immediately put step one of the Board Sanction process on the agenda regarding Xiao. No trustee should ever be made to feel unsafe. As former members of the armed forces, my husband and I are trained in threat assessment and Xiao's repeated verbal and physical behaviors all point to him escalating to violence unless he is formally addressed by THE BOARD.

But more meaningfully than that, I do not feel safe that my colleagues do not seem to care that I am a target of this man. The five of you (Weir, Feller, Harrison, Xiao and Vessa) are developing a troubling reputation of sympathizing with perpetrators and actively working against victims. This is why at the beyof yesterday's meeting, I told Marcia I would only work with you (Bone) in a small group. Cory reacted disrespectfully with her GASP when I stood up for myself. I didn't know what else she might say or do. You didn't address her then either. Pres Weir, I don't feel safe.

The five of you have spent many hours and a lot of taxpayer money putting together vicious censure resolutions against me. Meanwhile former counsel Jenny Wells was aggressive towards me on 9/22 and you all did nothing. And now Xiao is aggressive towards me (again) and you all do nothing.

Except for Bone, I am left to defend myself and the reward is a censure resolution that seeks to prohibit me from stepping foot onto campuses, change my title to "censured trustee" and prohibit me from being a board officer. I can think of nowhere else in my life where the individual who seeks to be respectful of various opinions and inclusive of all people and lawful at all times is targeted as the dangerous one that the community needs protection from. You all are out of control.

The safety of all trustees and citizens matters! Why do so many feel unsafe on your watch Pres Weir? Please spend less time doubling down on ridiculousness, less money on legal advice to harass me and more time mentoring trustees to behave respectfully and getting the entire board to be able to respect TOMA and work together.

His latest outburst at our workshop yesterday was directed toward Trustee Weston and me and I am curious to why Trustee Weston and I were the ones that had to stop him? Why is he allowed to be so angry and especially with Trustee Weston right next to him. What if he decides to physically take out this anger? I know I would not feel safe sitting next to him as it is obvious he is not in control of his anger.

I am requesting that I be moved to Dr. Xiao's spot on the dais by Trustee Weston for safety.

Also his rambling about not caring about TOMA was very concerning as the law is important to follow to keep the district safe, would you not agree? His outburst about TOMA made me believe he may not understand the importance so what is being done to address this?

Pres Weir,

I must memorialize the on-going inappropriate behavior of Trustee Jun Xiao and the complicity of the other board members in our 3 hour closed session meeting tonight. My husband and I spoke late this evening at length about Xiao's threatening behavior towards me. I believe action to ensure safety is now required.

On multiple occasions tonight, Xiao flailed his arms, raised his voice at me and blurted out too many inappropriate statements to count. I calmly objected over and over and Trustee Mary Bone stood alone in addressing him and insisting he stop during the first two hours of our meeting. I was even subjected to Trustee Amber Feller dismissing my concerns and asserting that Xiao has a first amendment right to say whatever he wants to me. It wasn't until the 3rd hour of the meeting when the lawyer, Joey Moore, became uncomfortable with Xiao's aggressive behavior that other trustees besides just Bone made comments to Xiao to stop. Trustee Cory Vessa even stood up and tried to talk Xiao into stepping out of the room.

From BBF local (board policy on ETHICS) attached to this email : "I will not physically or verbally threaten or intimidate another Trustee or staff member on or off school property."

Oftentimes his behavior is captured on video in open session (most recently in the 6 Nov 2021 meeting). But tonight was in closed session so it wasn't captured on video.

I have now been repeatedly traumatized and made to feel unsafe by Xiao. He needs to be seated away from Bone and I at the dais. This is not complicated and needs to happen immediately. Can you take

care of this Pres Weir or do we need an agenda item in the 18 Nov mtg and put the seating arrangement up for a vote?

In addition, from page 9 of the Board Operating Procedures (attached to this email) is below.

K. Board Sanctions Trustees are expected to comply with Board Operating Procedures, Board Policy, and other best practices to serve the best interests of the District.

In the event a Trustee violates the Board operating procedures and/or Board policy, the Board may choose: 1. To post an item for discussion regarding the Trustee on an upcoming Board agenda in closed session. During the closed session, Trustees shall discuss the concern with the Trustee, attempt to gain greater understanding, and try to resolve the matter. 2. If the Trustee continues to violate Board operating procedures and/or Board policy the Board shall place the discussion of the Trustee on another Board agenda in closed session. At this meeting, the Board may choose in open session to direct the Trustee to receive additional training designed to address the specific issue. 3. Following a third violation of Board operating procedures or Board policy, the Board: a. May choose to issue a public censure at a legally called Board meeting in open session. The censure will consist of a calmly worded statement describing the inappropriate behavior of the Trustee, an explanation of the desired behavior, and a statement of agreement by a majority of the Trustees that the behavior is inappropriate, and/or Round Rock ISD 10 Board Operating Procedures b. May choose to remove the Trustee from any Board-appointed or elected officer position or responsibility, from membership or chairmanship of a Board committee, and/or from appointment to positions outside the Board as a District representative. 4. If a Trustee violates the Board operating procedures or Board policy a fourth time, the Board of trustees may: a. Vote to withhold financial resources from the offending Trustee, such as disallowance of reimbursement for attendance at out-of-town conventions, seminars, or other District related travel, and/or b. In extreme situations, may agree to ask the offending Trustee to resign

I would never seek to deny Xiao due process so it's important we follow the process for sanction. I know of no other way to address this behavior than to immediately put step one of the Board Sanction process on the agenda regarding Xiao. No trustee should ever be made to feel unsafe. As former members of the armed forces, my husband and I are trained in threat assessment and Xiao's repeated verbal and physical behaviors all point to him escalating to violence unless he is formally addressed by THE BOARD.

Danielle - there were a total of 5 police reports filed for two different incidents on 10/21 at the board meeting by Dustin Clark, Christie Slape and Jennifer (not sure her last name). They were filed last Friday with Officer Marquez. I know that Mr Yarbrough was notified of the incidents as well as the increased harassment online. I'm not sure the process from an administrative side and investigative procedures. I can tell you the victim was fearful for her safety and was considering if she wanted to press charges.

She was visibly afraid for her safety in the meeting with Officer Marquez. We provided Officer Marquez a picture of the suspect and asked him to be identified by this Friday. It's absolutely unacceptable that I sit here a week later not knowing if the person in the picture provided is the same person harassing me and 6 others online, assaulted Jennifer and confronted Dustin/Christie outside in the parking lot or if they are two different people. I can also tell you that the person harassing me online is followed by a private Twitter account operated by Tiffanie Harrison @youngtiffanie.

I'm struggling to understand why this is not being taken seriously by the district. This information is critical to me obtaining a TRO.

I'm sure the reports can be provided by the RRISD police.

Since yesterday, I've been trying to reconcile in my mind HOW we got from **Point A** (*my daughter crying in a restroom stall because of an ex-friend emotionally abusing her at school*) to seemingly unrelated **Point B** (*my daughter randomly and absurdly accused by an AP, without ANY evidence, of a homosexual rendezvous in the girls' restroom with a female friend who was consoling her while crying, and then both girls sent to the office for a referral*). But then no actual disciplinary referral follow through is happening apparently, and no explanation provided to account for this odd accusation and accostment of my daughter in the restroom by a school administrator? Like seriously?? HOW did we get here? This has made little to no sense to me since I was first informed of the bizarre situation yesterday.

I have now encountered information that I suspect may be the missing piece to this nonsensical puzzle. As a parent, I have a *RIGHT* to know whether the information I have encountered is true or false. I do *not* have a right to know the identity of the individuals involved, however, I most assuredly have a right to know whether a **gang rape/sexual assault/or some type of sexual encounter took place recently in a CRHS restroom involving 8 boys and 1 girl**. Did this happen, yes or no? From multiple sources *who would know*, I'm being told, YES, this DID HAPPEN.

This involves MY child's safety and I expect an answer to my question IMMEDIATELY. My question: Did a sexual assault of some sort very recently take place in a CRHS restroom, which then prompted a heightened administrator response to monitoring the goings-on in the restroom? Is THIS how MY daughter became inadvertently involved in this strange situation in the first place? Bottom line, did a rape or sexual assault recently occur in a CRHS restroom, *yes or no*?

If I don't receive a prompt reply to this message, or my questions above are ignored, I shall be dialing 911 to file a report, and assuming that there is imminent danger at CRHS. Please reply immediately with a full accounting of the FACTS minus the names of the specific individuals whose privacy rights are protected. YOU drug MY child into this situation, TELL ME WHY, and WHAT is actually going on.

Dr. Presley,

I am following up with you regarding video surveillance footage I requested on Dec 1st, and I am hoping you can help coordinate with the video dept to allow me to have access to this video. I spoke with Dr. Azaiez about it in person at the 12/16 regular monthly board meeting, and he assured me that he would speak with Chief Yarbrough and the video dept to get me what I have requested, but nothing ever came of it.

I have requested video surveillance of the following, and the open records department has responded that what I have requested does not exist (no responsive information). Additionally, it's my understanding that either Dr. Azaiez or Chief Yarbrough gave the board an update about the video in question back in Dec. I am hoping you can help clear things up.

All surveillance video of the outside hallway of the boardroom in
bldg 100 on 10/21 from 6:30-7:00

Requesting all outdoor surveillance video showing the outside of the entrance of bldg 100, on 10/21 from 8:15pm - 9:00pm.

Requesting all outdoor surveillance video of the parking lot in front of bldg 100, on 10/21 from 8:15pm - 9:00pm.

Your help in resolving this matter would be greatly appreciated.

I think the concern is that the police dept told him the video does not exist which isn't true. I could be misremembering that. I think a phone call to him would be helpful and good customer service to clear things up. Just my thoughts. This video is a high interest item for obvious reasons and I don't see the interest in obtaining it going away.

What is the status of my request?

RRISD Leaders,

It has been over a week since I requested this group's assistance in gaining understanding as to why the video surveillance of assault and harassment incidents during the 10/21/21 board meeting seem to be missing. This is a matter of public safety and missing evidence of a crime committed inside of Round Rock High School.

I have included Chief Yarbrough in hopes that maybe he can explain the missing video surveillance footage that we asked him to preserve, and that Chief Marquez assured us would be preserved.

I am hoping that the response we received from the Open Records team is in error, and that this group of leaders will work with us on this matter. If not, we will revisit our approach in shedding light on what happened to this video footage.

Respectfully,

Dustin Clark

Board of Trustees,

We have a significant breakdown in security, safety, and evidence chain of custody that needs to be addressed immediately. I made a similar request for the video surveillance footage of the assault and harassment incident that occurred 10/21 board meeting, and the open records team has informed me that it does not exist (see below). I have seen the cameras in that hallway, and at the entrance of bldg 100, so they do exist.

I asked Chief Yarbrough on 10/25 to be sure the video evidence was preserved. When we met with Officer Marquez on 10/29 to make this report, we asked about the length of time that video surveillance is stored. I audio recorded our entire conversation with Officer Marquez (with his knowledge), and below is some of the transcript in regards to preserving video surveillance of a reported crime.

Officer Marquez was asked the following:

Ricci Nelson: "By filling this out [the police report], will it ensure that you preserve any video that you have?"

Officer Luis Marquez: "Oh, yeah. Yes ma'am. We have to attach whatever video there is [to the report]. We would download that video and preserve it and add that to our evidence cloud, and it's attached to the case and class C offenses will usually stay on for, I believe, about, since it's an assault, about two years."

Based on the Open Records Team's response, and the response from Officer Marquez, I have some questions I would like to have answered.

- 1) Why is there no responsive information [stored video] regarding our request?
- 2) Are the specified cameras operational?
- 3) If the cameras are operational, did Chief Yarbrough/RRISD PD not preserve the video evidence of the crime as requested?
- 4) If the cameras are not operational, why not and how long have they not been operational?
- 5) Was the video overwritten?
- 6) What is the RRISD video surveillance storage policy?

Respectfully,

Dustin Clark

Amy,

Thank you for finding a solution to this issue. If you honestly feel an officer needs to be placed behind Dr. Xiao then that is very scary and I hope you have let Dr. Xiao know this action is being taken because of his continuous outrageous behavior. More officers do not personally make me feel safer but I will let Danielle speak and maybe this makes her feel safer but it definitely demonstrates there is a major issue.

Pres Weir,

I must memorialize the on-going inappropriate behavior of Trustee Jun Xiao and the complicity of the other board members in our 3 hour closed session meeting tonight. My husband and I spoke late this evening at length about Xiao's threatening behavior towards me. I believe action to ensure safety is now required.

On multiple occasions tonight, Xiao flailed his arms, raised his voice at me and blurted out too many inappropriate statements to count. I calmly objected over and over and Trustee Mary Bone stood alone in addressing him and insisting he stop during the first two hours of our meeting. I was even subjected to Trustee Amber Feller dismissing my concerns and asserting that Xiao has a first amendment right to say whatever he wants to me. It wasn't until the 3rd hour of the meeting when the lawyer, Joey Moore, became uncomfortable with Xiao's aggressive behavior that other trustees besides just Bone made comments to Xiao to stop. Trustee Cory Vessa even stood up and tried to talk Xiao into stepping out of the room.

From BBF local (board policy on ETHICS) attached to this email : "I will not physically or verbally threaten or intimidate another Trustee or staff member on or off school property."
Oftentimes his behavior is captured on video in open session (most recently in the 6 Nov 2021 meeting). But tonight was in closed session so it wasn't captured on video.

I have now been repeatedly traumatized and made to feel unsafe by Xiao. He needs to be seated away from Bone and I at the dais. This is not complicated and needs to happen immediately. Can you take care of this Pres Weir or do we need an agenda item in the 18 Nov mtg and put the seating arrangement up for a vote?

In addition, from page 9 of the Board Operating Procedures (attached to this email) is below.

K. Board Sanctions Trustees are expected to comply with Board Operating Procedures, Board Policy,

and other best practices to serve the best interests of the District.

In the event a Trustee violates the Board operating procedures and/or Board policy, the Board may choose: 1. To post an item for discussion regarding the Trustee on an upcoming Board agenda in closed session. During the closed session, Trustees shall discuss the concern with the Trustee, attempt to gain greater understanding, and try to resolve the matter. 2. If the Trustee continues to violate Board operating procedures and/or Board policy the Board shall place the discussion of the Trustee on another Board agenda in closed session. At this meeting, the Board may choose in open session to direct the Trustee to receive additional training designed to address the specific issue. 3. Following a third violation of Board operating procedures or Board policy, the Board: a. May choose to issue a public censure at a legally called Board meeting in open session. The censure will consist of a calmly worded statement describing the inappropriate behavior of the Trustee, an explanation of the desired behavior, and a statement of agreement by a majority of the Trustees that the behavior is inappropriate, and/or Round Rock ISD 10 Board Operating Procedures b. May choose to remove the Trustee from any Board-appointed or elected officer position or responsibility, from membership or chairmanship of a Board committee, and/or from appointment to positions outside the Board as a District representative. 4. If a Trustee violates the Board operating procedures or Board policy a fourth time, the Board of trustees may: a. Vote to withhold financial resources from the offending Trustee, such as disallowance of reimbursement for attendance at out-of-town conventions, seminars, or other District related travel, and/or b. In extreme situations, may agree to ask the offending Trustee to resign

I would never seek to deny Xiao due process so it's important we follow the process for sanction. I know of no other way to address this behavior than to immediately put step one of the Board Sanction process on the agenda regarding Xiao. No trustee should ever be made to feel unsafe. As former members of the armed forces, my husband and I are trained in threat assessment and Xiao's repeated verbal and physical behaviors all point to him escalating to violence unless he is formally addressed by THE BOARD.

I, my husband and others have wondered if he will escalate to a physical attack. I do not feel safe near him. But more meaningfully than that, I do not feel safe that my colleagues do not seem to care that I am a target of this man. The five of you (Weir, Feller, Harrison, Xiao and Vessa) are developing a troubling reputation of sympathizing with perpetrators and actively working against victims. This is why at the beyof yesterday's meeting, I told Marcia I would only work with you (Bone) in a small group. Cory reacted disrespectfully with her GASP when I stood up for myself. I didn't know what else she might say or do. You didn't address her then either. Pres Weir, I don't feel safe.

The five of you have spent many hours and a lot of taxpayer money putting together vicious censure resolutions against me. Meanwhile former counsel Jenny Wells was aggressive towards me on 9/22 and you all did nothing. And now Xiao is aggressive towards me (again) and you all do nothing.

Except for Bone, I am left to defend myself and the reward is a censure resolution that seeks to prohibit me from stepping foot onto campuses, change my title to "censured trustee" and prohibit me from being a board officer. I can think of nowhere else in my life where the individual who seeks to be respectful of various opinions and inclusive of all people and lawful at all times is targeted as the dangerous one that the community needs protection from. You all are out of control.

The safety of all trustees and citizens matters! Why do so many feel unsafe on your watch Pres Weir?

Please spend less time doubling down on ridiculousness, less money on legal advice to harass me and more time mentoring trustees to behave respectfully and getting the entire board to be able to respect TOMA and work together.

His latest outburst at our workshop yesterday was directed toward Trustee Weston and me and I am curious to why Trustee Weston and I were the ones that had to stop him? Why is he allowed to be so angry and especially with Trustee Weston right next to him. What if he decides to physically take out this anger? I know I would not feel safe sitting next to him as it is obvious he is not in control of his anger.

I am requesting that I be moved to Dr. Xiao's spot on the dais by Trustee Weston for safety.

Also his rambling about not caring about TOMA was very concerning as the law is important to follow to keep the district safe, would you not agree? His outburst about TOMA made me believe he may not understand the importance so what is being done to address this?

Again please let me know what you are doing to address these issues as you seemed so concerned with other Trustee behavior that you took action.

I can't even begin to describe how divisive, rude, disrespectful and hateful this message is as well as so far off base. I will not allow a trustee that is suppose to represent me insinuate i'm a racist. As a taxpayer, parent and constituent, you clearly lack the knowledge, empathy and humility to listen and come from a place of understanding because you live in a world based on nothing but race baiting.

I can only hope one day you take a step back and realize YOUR ideology is the problem and YOUR ideology is creating the division and hatred being spewed at the meetings. You will never hear this crap from me or anyone around me.

At the end of the day, your hyper focus on me smacks of racism. From your excessive open records requests, obsession with who I know or don't know, heckling of me at meetings and more. By the way, I heard your commentary towards me at the end of the last meeting. I was late because I was working. The meeting was called for the first available quorum. Even though I did not have to attend, I came as soon as I was done so that I could stand in solidarity with my school board colleagues and put my vote on-record. I know you see things through a very binary lens of left vs. right but I don't see or move through the world that way. How I ~tend to vote is not my identity. I am a great many things. A daughter, friend, community supporter, educator and so much more. I try not to view others through the restrictive lens of who they may be inclined to vote for...we are all much more than that.

You are correct in what you've expressed. I've never condoned any "vial" hate. I do think that there is a lot of racism in our district. But usually...if an accusation doesn't apply, "let it fly". I don't get upset when you all shout that some of us are communists because it's simply not true.

Who I am personally connected to is really none of your business. Same with professionally. None of it impacts or interferes with my ability to serve on this board. And you are simply incorrect about so very many of your assumptions but again...it doesn't apply so I let it fly.

Dr. Presley would not be the person to speak with in regards to any of my security or witness. That would be legal counsel.

I honestly wish you would use all of the time you seem to have to support our district and our students instead of obsessing over my affiliations as the single Black board member. I honestly don't have time to continue to engage with you and/or correct your baseless assumptions. I am focused on my own life and preparing for the meeting this evening. There is a lot of data to dig into as we work to focus on student outcomes. Which is the reason some of us are here. Our brilliant, empathetic and compassionate students. There are plenty of opportunities available to substitute if you are willing.

Thank you,

There is no way. I know these videos exist unless they have been taped over due to your failure to respond in a timely matter. I was told by the officer and chief Yarbrough videos existed of these time frames. I'm demanding an investigation into what happened to these videos that were supposed to be attached to the police report filed in association to an assault.

Dr Azaiez, Chief Yarbrough, I'm confused, do you plan to follow up with the citizens who are expecting to have their open records request for footage fulfilled with the information you provided to the board last week? Mr Clark says he has not heard back from you.

I have included Chief Yarbrough in hopes that maybe he can explain the missing video surveillance footage that we asked him to preserve, and that Chief Marquez assured us would be preserved.

I am hoping that the response we received from the Open Records team is in error, and that this group of leaders will work with us on this matter. If not, we will revisit our approach in shedding light on what happened to this video footage.

Board of Trustees,

We have a significant breakdown in security, safety, and evidence chain of custody that needs to be addressed immediately. I made a similar request for the video surveillance footage of the assault and harassment incident that occurred 10/21 board meeting, and the open records team has informed me that it does not exist (see below). I have seen the cameras in that hallway, and at the entrance of bldg 100, so they do exist.

I asked Chief Yarbrough on 10/25 to be sure the video evidence was preserved. When we met with Officer Marquez on 10/29 to make this report, we asked about the length of time that video surveillance is stored. I audio recorded our entire conversation with Officer Marquez (with his knowledge), and below is some of the transcript in regards to preserving video surveillance of a reported crime.

Officer Marquez was asked the following:

Ricci Nelson: "By filling this out [the police report], will it ensure that you preserve any video that you have?"

Officer Luis Marquez: "Oh, yeah. Yes ma'am. We have to attach whatever video there is [to the report]. We would download that video and preserve it and add that to our evidence cloud, and it's attached to the case and class C offenses will usually stay on for, I believe, about, since it's an assault, about two years."

Based on the Open Records Team's response, and the response from Officer Marquez, I have some questions I would like to have answered.

- 1) Why is there no responsive information [stored video] regarding our request?
- 2) Are the specified cameras operational?
- 3) If the cameras are operational, did Chief Yarbrough/RRISD PD not preserve the video evidence of the crime as requested?
- 4) If the cameras are not operational, why not and how long have they not been operational?
- 5) Was the video overwritten?
- 6) What is the RRISD video surveillance storage policy?

Respectfully,

Dustin Clark

These are matters of urgency since they could be related to an assault and escalated online harassment and possible hate crimes. I hope these are released asap as they are not related to any current investigation. I think this is important for all to understand that I currently fear for my safety and have retained a lawyer, private investigator and reached out to cedar park police and fbi. I respectfully disagree as this is hate speech which is not allowed. If your encouraging this type of hate speech then that is really disappointing. I also want to dive into more regarding "your own security" as this is very interesting. It seems ironic that your for defunding the police but have the means to provide your own security. Seems very much like elitism. I'm sure other people that fear for there safety do not have the means to have their own security. Must be nice because I surely do not and have had my safety comprised by the crazy leftists supporting you and you have not once condoned their actions. Nor have you condoned the vial hate by the people you are very connected too both personally and professionally.

Dr Presley - I would like to understand what exactly "provide my own security" entails.

Amy,

Last night the board lawyer, Joey Moore, mentioned that Dr. Azaiez's lawyer threatened against the board that there were possible legal issues "coming". It is concerning that Dr. Azaiez would not respond to the board corporate's request as to what specific allegations he was talking about in his original letter regarding the specific concerns of harassment from trustees. Please let us know if you have had any conversations with Dr. Azaiez about these possible matters of concern or what he plans to do. It is concerning that the majority of the board is allowing Dr. Azaiez to continually threaten the board with empty allegations. To protect the district this issue needs to be addressed and resolved in a timely fashion. I will remind you that Dr. Azaiez's letter regarding harassment from Trustee Weston and I was in our official capacity for merely asking him questions via email that are absolutely relevant to his job and oversight of the district. In fact the questions were the same or similar to the ones the board corporate compelled him to answer through the board lawyer, Joey Moore.

Why has the board not addressed this first letter and now his lawyer is threatening that action is coming and still the board corporate ignores this obvious threat. As a Trustee yourself, Amy, that was named in costly litigation I would think you would be more proactive on this matter to ensure the district is protected. I know you are only President for a short time longer but this matter should be addressed quickly.

Trustee Vessa mentioned last night that she had set up a meeting in July (if I recall correctly) to discuss Dr. Azaiez's affair with his mistress. If someone could explain how me asking about appointments with TEA compares to asking about Dr. Azaiez's sex life with his mistress and discussing how many times he had sex with his mistress I am open to hearing. In fact Dr. Azaiez seems okay sharing with Trustee Vessa about his sex life but would not share if he had an appointment with TEA.

I feel that this extreme difference in treatment, by Dr. Azaiez, is because Trustee Weston and I are being intimidated and threatened into submission to turn a blind eye to everything that is going on with Dr. Azaiez that affects his TEA license and this threatening hinders us from performing our official duties. The board should not allow these empty threats from the Superintendent and if they are not empty the board should ask Joey Moore to get more clarification. The board corporate already asked Dr. Azaiez for answers regarding this allegation of harassment and he would not provide them that should be unacceptable behavior and as TEC Sec 11.051 states the board corporate shall oversee the management of the district. If the Superintendent will not even honestly reply to questions through the board lawyer I do not understand how the board corporate can honestly oversee the management of the district.

I want to be very clear that I feel Dr. Azaiez is intimidating at least two elected officials, Trustee Weston and I, to ignore his assault allegations including the standing TRO. This needs to be addressed.

I have copied Danielle so she can speak for herself.

Best Regards,
Mary Bone

I think the concern is that the police dept told him the video does not exist which isn't true. I could be misremembering that. I think a phone call to him would be helpful and good customer service to clear things up. Just my thoughts. Office Luis Marquez: "Oh, yeah. Yes ma'am. We have to attach whatever video there is [to the report]. We would download that video and preserve it and add that to our evidence cloud, and it's attached to the case and class C offenses will usually stay on for, I believe, about, since it's an assault, about two years."

Based on the Open Records Team's response, and the response from Officer Marquez, I have some questions I would like to have answered.

- 1) Why is there no responsive information [stored video] regarding our request?
- 2) Are the specified cameras operational?
- 3) If the cameras are operational, did Chief Yarbrough/RRISD PD not preserve the video evidence of the crime as requested?
- 4) If the cameras are not operational, why not and how long have they not been operational?
- 5) Was the video overwritten?
- 6) What is the RRISD video surveillance storage policy?

Respectfully,

Dustin Clark

Pres Weir,

I must memorialize the on-going inappropriate behavior of Trustee Jun Xiao and the complicity of the other board members in our 3 hour closed session meeting tonight. My husband and I spoke late this evening at length about Xiao's threatening behavior towards me. I believe action to ensure safety is now required.

On multiple occasions tonight, Xiao flailed his arms, raised his voice at me and blurted out too many inappropriate statements to count. I calmly objected over and over and Trustee Mary Bone stood alone in addressing him and insisting he stop during the first two hours of our meeting. I was even subjected to Trustee Amber Feller dismissing my concerns and asserting that Xiao has a first amendment right to say whatever he wants to me. It wasn't until the 3rd hour of the meeting when the lawyer, Joey Moore, became uncomfortable with Xiao's aggressive behavior that other trustees besides just Bone made comments to Xiao to stop. Trustee Cory Vessa even stood up and tried to talk Xiao into stepping out of the room.

From BBF local (board policy on ETHICS) attached to this email : "I will not physically or verbally threaten or intimidate another Trustee or staff member on or off school property."

Oftentimes his behavior is captured on video in open session (most recently in the 6 Nov 2021 meeting). But tonight was in closed session so it wasn't captured on video.

I have now been repeatedly traumatized and made to feel unsafe by Xiao. He needs to be seated away from Bone and I at the dais. This is not complicated and needs to happen immediately. Can you take care of this Pres Weir or do we need an agenda item in the 18 Nov mtg and put the seating arrangement up for a vote?

In addition, from page 9 of the Board Operating Procedures (attached to this email) is below.

K. Board Sanctions Trustees are expected to comply with Board Operating Procedures, Board Policy, and other best practices to serve the best interests of the District.

In the event a Trustee violates the Board operating procedures and/or Board policy, the Board may choose: 1. To post an item for discussion regarding the Trustee on an upcoming Board agenda in closed session. During the closed session, Trustees shall discuss the concern with the Trustee, attempt to gain greater understanding, and try to resolve the matter. 2. If the Trustee continues to violate Board operating procedures and/or Board policy the Board shall place the discussion of the Trustee on

another Board agenda in closed session. At this meeting, the Board may choose in open session to direct the Trustee to receive additional training designed to address the specific issue. 3. Following a third violation of Board operating procedures or Board policy, the Board: a. May choose to issue a public censure at a legally called Board meeting in open session. The censure will consist of a calmly worded statement describing the inappropriate behavior of the Trustee, an explanation of the desired behavior, and a statement of agreement by a majority of the Trustees that the behavior is inappropriate, and/or Round Rock ISD 10 Board Operating Procedures b. May choose to remove the Trustee from any Board-appointed or elected officer position or responsibility, from membership or chairmanship of a Board committee, and/or from appointment to positions outside the Board as a District representative. 4. If a Trustee violates the Board operating procedures or Board policy a fourth time, the Board of trustees may: a. Vote to withhold financial resources from the offending Trustee, such as disallowance of reimbursement for attendance at out-of-town conventions, seminars, or other District related travel, and/or b. In extreme situations, may agree to ask the offending Trustee to resign

I would never seek to deny Xiao due process so it's important we follow the process for sanction. I know of no other way to address this behavior than to immediately put step one of the Board Sanction process on the agenda regarding Xiao. No trustee should ever be made to feel unsafe. As former members of the armed forces, my husband and I are trained in threat assessment and Xiao's repeated verbal and physical behaviors all point to him escalating to violence unless he is formally addressed by THE BOARD.

I, my husband and others have wondered if he will escalate to a physical attack. I do not feel safe near him. But more meaningfully than that, I do not feel safe that my colleagues do not seem to care that I am a target of this man. The five of you (Weir, Feller, Harrison, Xiao and Vessa) are developing a troubling reputation of sympathizing with perpetrators and actively working against victims. This is why at the beyof yesterday's meeting, I told Marcia I would only work with you (Bone) in a small group. Cory reacted disrespectfully with her GASP when I stood up for myself. I didn't know what else she might say or do. You didn't address her then either. Pres Weir, I don't feel safe.

The five of you have spent many hours and a lot of taxpayer money putting together vicious censure resolutions against me. Meanwhile former counsel Jenny Wells was aggressive towards me on 9/22 and you all did nothing. And now Xiao is aggressive towards me (again) and you all do nothing.

Except for Bone, I am left to defend myself and the reward is a censure resolution that seeks to prohibit me from stepping foot onto campuses, change my title to "censured trustee" and prohibit me from being a board officer. I can think of nowhere else in my life where the individual who seeks to be respectful of various opinions and inclusive of all people and lawful at all times is targeted as the dangerous one that the community needs protection from. You all are out of control.

The safety of all trustees and citizens matters! Why do so many feel unsafe on your watch Pres Weir? Please spend less time doubling down on ridiculousness, less money on legal advice to harass me and more time mentoring trustees to behave respectfully and getting the entire board to be able to respect TOMA and work together.

His latest outburst at our workshop yesterday was directed toward Trustee Weston and me and I am curious to why Trustee Weston and I were the ones that had to stop him? Why is he allowed to be so angry and especially with Trustee Weston right next to him. What if he decides to physically take out this anger? I know I would not feel safe sitting next to him as it is obvious he is not in control of his anger.

I am requesting that I be moved to Dr. Xiao's spot on the dais by Trustee Weston for safety.

Also his rambling about not caring about TOMA was very concerning as the law is important to follow to keep the district safe, would you not agree? His outburst about TOMA made me believe he may not understand the importance so what is being done to address this?

Again please let me know what you are doing to address these issues as you seemed so concerned with other Trustee behavior that you took action.

Board of Trustees, Dr. Azaiez,

I want to make you aware of a concerning safety issue at a board meeting that I don't believe has been properly addressed by RRISD PD. I am hoping that either the BoT or Dr. Azaiez can look into this matter further, determine who the perpetrator was, and issue a restraining order on him.

On Monday October 25th, I contacted Chief Yarbrough via email about an assault and a harassment incident that occurred at the 10/21/21 board meeting, both committed by the same man. While the board was in the first closed session, and we were asked to wait outside the boardroom, this man grabbed an Asian woman by both of her shoulders and pushed her aside in the hallway as he walked by. After moving her aside, he continued on and stopped and spoke with a woman named Jenn Brown. Later that night, he sat with a woman named Lindsey Ledyard. We do not know the name of the man, but Jenn Brown attends almost every board meeting. I have attached a picture from the board meeting camera of the man in question.

Later that night, as I was leaving the meeting with my wife and Christie Slape, this same man confronted us on the stairs leading out of bldg100 and proceeded to verbally harass me and berate me for the public comments I made during the meeting. I have thick skin, and have no issue defending myself if needed, but this was very concerning given the earlier physical altercation. Both of these incidents occurred in view of RRISD security cameras, and the perpetrator's vehicle and license plate should be in view of the outdoor camera.

On October 26th, I received a response from Chief Yarbrough to schedule a meeting with Officer Luis Marquez.

On October 29th, I met with Officer Luis Marquez, along with the Christie Slape, Ricci Nelson, and the victim. During this meeting, the victim gave her statement, but was reluctant to press charges and seek a restraining order because she feared that this man would stalk her at her home. The victim stated to Officer Marquez that she will no longer come to the school board meetings because she is fearful of what this man might do. Christie Slape and I also gave a statement.

I was not given a police report number initially, but I followed up with Officer Marquez, and he provided it to me. I also asked him for a copy of the police report, but he said I would need to go through Open Records to get a copy. I submitted a request to Open Records on 11/3/21, and have still not received a copy, well past the 10 business days required by law. This is very concerning given that I am aware of dozens of people who are experiencing the same issue with the RRISD Open Records department.

I request an RRISD restraining order be given to this man for the assault, and that the BoT look into the issues plaguing the RRISD Open Records dept.

Dear Board of Trustees, Chief of Police, and Superintendent Azaiez,

I don't email you all often, but when I do, I feel it is an important matter. I would like answers and a full investigation into the below safety and security risk.

It has come to my attention that RRISD may have a significant breakdown in security, safety, and evidence chain of custody that needs to be addressed immediately.

Due to an assault that occurred outside of the 10/21/21 board meeting, two RRISD parents made an open records request for a portion of Round Rock High School hallway and exterior video surveillance, and the response from the district Open Records team is that, "no responsive information regarding your request for video from the hallway in the 100 building for the timeframes you identified." In short, it curiously does not exist.

Both of these parents have asked the chief of police, the superintendent, and the board president for an explanation as to why, but have been met with silence.

The request for this video surveillance footage was due to an assault and harassment incident that occurred at bldg 100, during the 10/21 board meeting. The assault occurred in the hallway outside the board meeting, and the verbal harassment occurred at the exterior entrance to bldg 100.

It has been confirmed that there are cameras in that hallway, and at the entrance of bldg 100 exist, so unless the cameras are not in operation, or someone manipulated the videos, the videos requested should exist.

A couple of days after the assault and harassment incident, those involved reported the incident to RRISD PD Chief Yarbrough via email, and he was asked to be sure the video evidence was preserved. Chief Yarbrough then coordinated with these parents to file a police report with RRISD PD Officer Marquez. The parents asked about the length of time that video surveillance is stored, and below is some of the transcript from their audio recording.

Officer Marquez was asked the following:

Parent: "By filling this out [the police report], will it ensure that you preserve any video that you have?"

Office Luis Marquez: "Oh, yeah. Yes ma'am. We have to attach whatever video there is [to the report]. We would download that video and preserve it and add that to our evidence cloud, and it's attached to the case and class C offenses will usually stay on for, I believe, about, since it's an assault, about two years."

Based on the Open Records Team's response, and the response from Officer Marquez, I have serious safety and security questions that need to be answered.

Will the Board of Trustees conduct a full investigation into the missing videos?

Why is there no "responsive information" [stored video] regarding the requested incidents?

Are the bldg 100 cameras in the hallway outside of the board meetings and the exterior of the building operational?

If not, how long have they not been operational?

If the cameras are operational, did Chief Yarbrough and/or the RRISD police officer not preserve the video evidence of the crime as required by the officer's acknowledgment?

Was the RRISD PD video evidence chain of custody followed?

Was the video overwritten or edited in any way?

What is the RRISD video surveillance storage policy, and was it followed?

Thank you for your time & attention to this matter.

Sincerely,
Glenda Mosley

RRISD Leaders,

It has been over a week since I requested this group's assistance in gaining understanding as to why the video surveillance of assault and harassment incidents during the 10/21/21 board meeting seem to be missing. This is a matter of public safety and missing evidence of a crime committed inside of Round Rock High School.

I have included Chief Yarbrough in hopes that maybe he can explain the missing video surveillance footage that we asked him to preserve, and that Chief Marquez assured us would be preserved.

I am hoping that the response we received from the Open Records team is in error, and that this group of leaders will work with us on this matter. If not, we will revisit our approach in shedding light on what happened to this video footage.

Respectfully,

Dustin Clark

Board of Trustees,

We have a significant breakdown in security, safety, and evidence chain of custody that needs to be addressed immediately. I made a similar request for the video surveillance footage of the assault and harassment incident that occurred 10/21 board meeting, and the open records team has informed me that it does not exist (see below). I have seen the cameras in that hallway, and at the entrance of bldg 100, so they do exist.

I asked Chief Yarbrough on 10/25 to be sure the video evidence was preserved. When we met with Officer Marquez on 10/29 to make this report, we asked about the length of time that video surveillance is stored. I audio recorded our entire conversation with Officer Marquez (with his knowledge), and below is some of the transcript in regards to preserving video surveillance of a reported crime.

Officer Marquez was asked the following:

Ricci Nelson: "By filling this out [the police report], will it ensure that you preserve any video that you have?"

Office Luis Marquez: "Oh, yeah. Yes ma'am. We have to attach whatever video there is [to the report]. We would download that video and preserve it and add that to our evidence cloud, and it's attached to the case and class C offenses will usually stay on for, I believe, about, since it's an assault, about two years."

Based on the Open Records Team's response, and the response from Officer Marquez, I have some questions I would like to have answered.

- 1) Why is there no responsive information [stored video] regarding our request?
- 2) Are the specified cameras operational?
- 3) If the cameras are operational, did Chief Yarbrough/RRISD PD not preserve the video evidence of the crime as requested?
- 4) If the cameras are not operational, why not and how long have they not been operational?
- 5) Was the video overwritten?
- 6) What is the RRISD video surveillance storage policy?

Respectfully,

Dustin Clark

Dr Azaiez and Chief Yarbrough,

Below (in italics) I copied and pasted an excerpt from today's (Dec 10, 2021) board update. Have you followed up with the community members who have requested the footage and/or sent emails to the board so that they understand that the incident on October 21, 2021 occurred in a different time frame?

An assault is a traumatic experience for the victim and observers so it's understandable if the requestors are off on the time. Please let me know if you have already shared this information with the interested parties. Or let me know if you put this in a board update with the expectation that board members would inform the people who sent us the emails of this.

Danielle Weston

OPEN RECORDS REQUEST RELATED TO VIDEO FOOTAGE

There have been several emails to the board questioning operations and procedures related to security video footage as the result of an Open Records Request. We wanted to alert the board that the emails included misinformation/misinterpretation of the response to the Open Records Request. There are several factors at play:

First, due to the current turnover and open positions in the legal services department, as well as a deluge of open records requests to address, the video footage from inside Building 100 from 6:30 to 7:00 pm. was no longer available when staff began working on the request. The video surveillance system keeps recordings on file until a certain amount of hours are reached (approximately 30 days worth) then deletes and begins recording again. However, due to the allegations of assault, Round Rock ISD Police had already reviewed this video related to the alleged incident. The incident referenced in the Open Records Request did not occur in the 6:30 to 7:00 p.m. timeframe. RRISD PD does have the video of the incident, but that has not been requested in an ORR. The footage of the parking lot was also reviewed by RRISD PD, but the license plate was not visible. Police did not archive it since it had no evidentiary value related to the reported assault and no longer have it in their possession. Finally, it is noteworthy to understand that Round Rock ISD does not release security footage in response to an Open Records Request. Instead, the legal services team submits a request for opinion from the Texas Attorney General's Office when a request for surveillance video is submitted. Those requests are routinely granted under Sections 418.182(a) and 552.108 (when applicable) of the Texas Government Code.

Leaders,

Ricci Neslon has brought to my attention that the open records team has stated that video she has requested for the assault incident on 10/22 does not exist.

Below is an email that I sent Chief Yarbrough on 10/25 informing him of the incident, and asking him to ensure the video evidence was preserved.

If video evidence of this assault was not preserved as requested, we either have gross negligence or willful misconduct. Either way, we have a very big problem that requires an immediate investigation and accountability.

If the video evidence exists, please provide it to Ms. Nelson as soon as possible.

Thank you,

Dustin Clark

Mr. Yarbrough and Mr. Williby,

Jennifer Dieterle, Ricci Nelson, Christie Slape and I would like to make an appt with you to file a police report of assault. We are all free Wednesday, 10/27 after 2:30pm.

During the first closed session break of the 10/21/21 board meeting, I witnessed a man aggressively grab Jennifer Dieterle by both shoulders and move her aside as he barreled through the hallway to get to his friend on the other side. The friend's name is Jenn Brown (see attached pic).

When the second closed session began, my wife and I were leaving the building with our friend Christie Slape, and this same man approached us in the parking lot and got very confrontational with me as though he was trying to intimidate me. When we didn't back down, he shouted some expletives and then walked quickly to his car, got in, and drove off. He was driving a black Lexus, but we didn't think to get the license plate.

We have been trying to identify the man's name, but have been unsuccessful. **We believe the hallway that leads to the board room has cameras, and would like the video evidence of the assault to be preserved from that night.**

We also believe this may be the same man that Ricci Nelson has recently raised concerns about to you. His name might be Jack Chiles or a man named Jason Schklar. Also, attached are pictures of the man in question as he was sitting in the board room. In the picture, a woman is sitting next to him, and her name is Lindsey Ledyard (pic attached) she can likely identify the name of the man. She spoke during public comments, but he did not. I've also included social media posts that show the hostile nature of Mr. Schklar towards RRISD parents who do not wear masks.

Please let me know if you can meet with us at 2:30pm on Wednesday 10/27/21.

Respectfully,

Dustin Clark

I spoke with Dr. Azaiez in person at the 12/16/21 board meeting, and he said to contact him and that he would be sure that the video footage I have requested is provided to me.

Why all the stalling and resistance to provide this video footage? Not providing an explanation leads me to believe that something is being hidden. If that is not the case, I am sure someone can simply explain what I need to do to get this footage.

We have a significant breakdown in security, safety, and evidence chain of custody that needs to be addressed immediately. I made a similar request for the video surveillance footage of the assault and harassment incident that occurred 10/21 board meeting, and the open records team has informed me that it does not exist (see below). I have seen the cameras in that hallway, and at the entrance of bldg 100, so they do exist.

I asked Chief Yarbrough on 10/25 to be sure the video evidence was preserved. When we met with Officer Marquez on 10/29 to make this report, we asked about the length of time that video surveillance is stored. I audio recorded our entire conversation with Officer Marquez (with his knowledge), and below is some of the transcript in regards to preserving video surveillance of a reported crime.

Officer Marquez was asked the following:

Ricci Nelson: "By filling this out [the police report], will it ensure that you preserve any video that you have?"

Officer Luis Marquez: "Oh, yeah. Yes ma'am. We have to attach whatever video there is [to the report]. We would download that video and preserve it and add that to our evidence cloud, and it's attached to the case and class C offenses will usually stay on for, I believe, about, since it's an assault, about two years."

Based on the Open Records Team's response, and the response from Officer Marquez, I have some questions I would like to have answered.

- 1) Why is there no responsive information [stored video] regarding our request?
- 2) Are the specified cameras operational?

- 3) If the cameras are operational, did Chief Yarbrough/RRISD PD not preserve the video evidence of the crime as requested?
- 4) If the cameras are not operational, why not and how long have they not been operational?
- 5) Was the video overwritten?
- 6) What is the RRISD video surveillance storage policy?

Respectfully,

Dustin Clark

Hi [REDACTED], I recommend all parents file grievances when they feel the district is taking inappropriate action. That's the only way to get a concern in front of the board for action.

Good afternoon,

It has been brought to my attention that CeVMS told students they "HAD" to wear a mask in club photos for the yearbook. If they didn't wear a mask they couldn't be in the photo. I've attached the wording that was sent out to parents and a response from the campus principal.

If any of those students had an opt out form and were forced to wear a mask, that's a parental violation. They did not ask if any of the maskless students had an opt out form, they were told to mask up or step out of the picture. The students were handed a mask and the picture wasn't taken until EVERYONE had one on. That is coercion and manipulation towards minors.

Yearbook photos should reflect truth not convey a false narrative. The overstepping of this district and school administration needs to stop.

Thank you for advocating parental choice. I appreciate you both!

Kind regards,

It's also notable that after a Asian women was assaulted outside a board meeting, nothing happened. Until the board leadership stands up to all issues of violence and harassment then the trolls will continue to act without impunity.

It's been brought to my attention that the gentleman that committed the assault that was reported to the district is currently at the board meeting. He also just flipped off another citizen. I have pointed him out to Chief Yarbrough. I do not feel safe with him in the room and the feel he is being protected by board members.

My expectation is this is addressed immediately as flipping off someone is completely unacceptable along with his violent outbursts in the past against other citizens. Hopefully the video will "show" up and a trespass warning issued immediately.

Officer Marquez was asked the following:

Ricci Nelson: "By filling this out [the police report], will it ensure that you preserve any video that you have?"

Office Luis Marquez: "Oh, yeah. Yes ma'am. We have to attach whatever video there is [to the report]. We would download that video and preserve it and add that to our evidence cloud, and it's attached to the case and class C offenses will usually stay on for, I believe, about, since it's an assault, about two years."

Based on the Open Records Team's response, and the response from Officer Marquez, I have some questions I would like to have answered.

- 1) Why is there no responsive information [stored video] regarding our request?
- 2) Are the specified cameras operational?
- 3) If the cameras are operational, did Chief Yarbrough/RRISD PD not preserve the video evidence of the crime as requested?
- 4) If the cameras are not operational, why not and how long have they not been operational?
- 5) Was the video overwritten?
- 6) What is the RRISD video surveillance storage policy?

Respectfully,

Dustin Clark

Just wanted to let you know you put my safety at risk by not redacting my information on an open records request regarding jack chiles. By posting my open records requests online without my knowledge you have further put my safety at risk. It's SHAMEFUL we have a district police force that does nothing to protect its community members. This group of people is also associated to a rrisd employee, involved in an assault and are know posting threatening tweets online but Chief Yarbrough has done nothing to investigate these issues. They still have not identified the perpetrator of the assault and he was at the last board meeting sitting with Jenn Brown. Trustee Harrison is connected to this group so maybe she can shed some light on who assaulted the Asian women.

I'll be reaching out to cedar park police, the local fbi office and my attorney to see if I can pursue legal action. I guess until someone gets really hurt or murdered by your inaction you keep sweeping these issues under the rug.

Regards
Ricci

Thank you for your email. Yesterday Trustee Bone and I both inquired to the superintendent, in writing, about this. I seek to protect our students safety and do not want what happened in Loudon County to happen here.

I eagerly await follow up from the superintendent to the entire board on our inquiry.

Dear Trustees at RRISD,

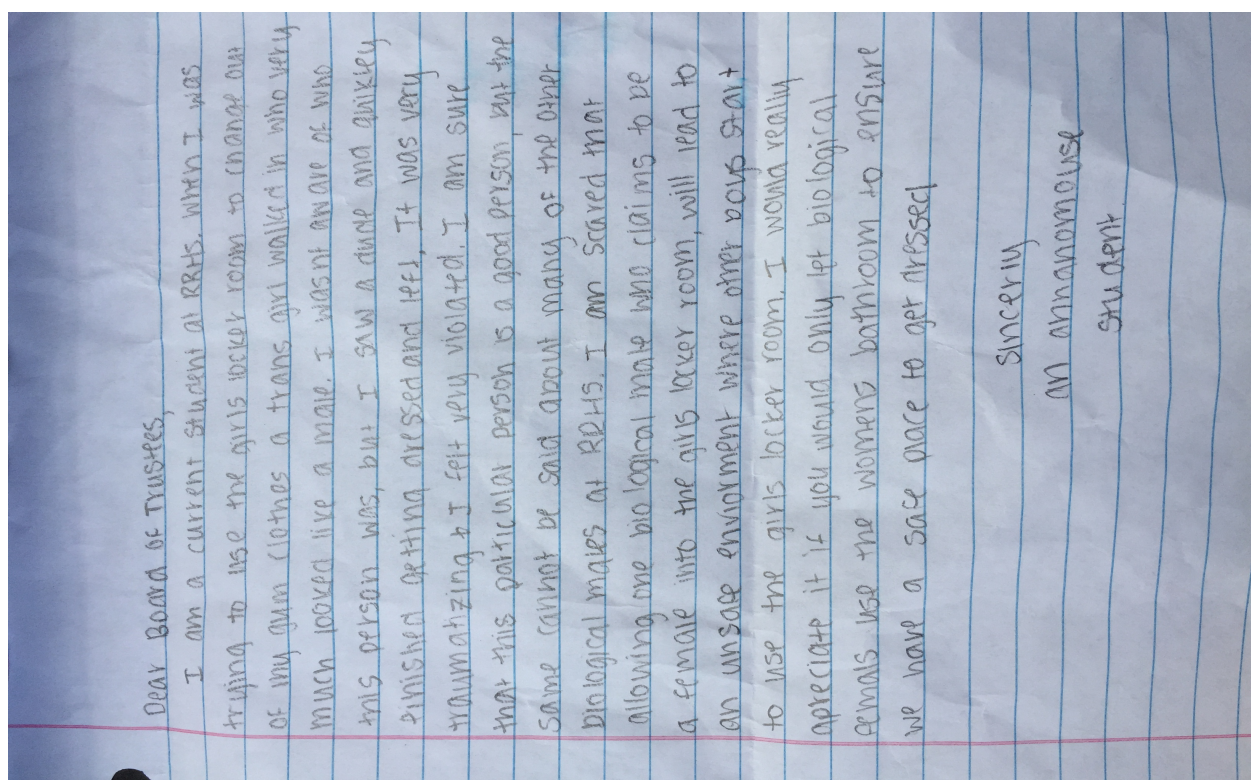

I appreciated the opportunity to speak at Thursday's general meeting and especially that no parent was "verboden" to enter. Please allow me to finish in this e-mail the rest of my appeal to you that wouldn't be squeezed into the one minute speaking time:

At Stone Bridge High School in Loudoun County, Virginia, where the school board's policy on "gender expression" provides a similar environment as presently experienced at RRISD schools, a ninth-grade girl was allegedly raped in a school bathroom by a so-called gender-fluid male student wearing a skirt. That and the testimony by the anonymous RRHS student yesterday (see attached) should give all of us serious pause as to what would prevent this kind of travesty. It seems to me that if we consider the conflicting interests in this matter, safety for all should win out over preference, and biological realities over ideology.

Please take the time to craft (with parent input, perhaps using a similar, low-key process as in the student outcome forum last week) a district-wide policy and action plan to address this dilemma. If we have the budget to remove urinals (?) and change the boys' bathrooms, we should certainly put some thought into how to make sure our girls aren't living in fear every time they enter a bathroom or locker room.

Sincerely,

Rob and Renate Sims

Dear Board of Trustees,
I am a current student at RRHS. When I was trying to use the girls locker room to change out of my gym clothes a trans girl walked in who very much looked like a male. I wasn't aware of who this person was, but I saw a dude and quickly finished getting dressed and left. It was very traumatizing & I felt very violated. I am sure that this particular person is a good person, but the same cannot be said about many of the other biological males at RRHS. I am scared that allowing one biological male who claims to be a female into the girls locker room, will lead to an unsafe environment where other boys start to use the girls locker room. I would really appreciate it if you would only let biological females use the women's bathroom to ensure we have a safe place to get dressed.

Sincerely
An anonymous student

Pres Weir,

I must memorialize the on-going inappropriate behavior of Trustee Jun Xiao and the complicity of the other board members in our 3 hour closed session meeting tonight. My husband and I spoke late this evening at length about Xiao's threatening behavior towards me. I believe action to ensure safety is now required.

On multiple occasions tonight, Xiao flailed his arms, raised his voice at me and blurted out too many inappropriate statements to count. I calmly objected over and over and Trustee Mary Bone stood alone in addressing him and insisting he stop during the first two hours of our meeting. I was even subjected to Trustee Amber Feller dismissing my concerns and asserting that Xiao has a first amendment right to say whatever he wants to me. It wasn't until the 3rd hour of the meeting when the lawyer, Joey Moore, became uncomfortable with Xiao's aggressive behavior that other trustees besides just Bone made comments to Xiao to stop. Trustee Cory Vessa even stood up and tried to talk Xiao into stepping out of the room.

From BBF local (board policy on ETHICS) attached to this email : "I will not physically or verbally threaten or intimidate another Trustee or staff member on or off school property."

Oftentimes his behavior is captured on video in open session (most recently in the 6 Nov 2021 meeting). But tonight was in closed session so it wasn't captured on video.

I have now been repeatedly traumatized and made to feel unsafe by Xiao. He needs to be seated away from Bone and I at the dais. This is not complicated and needs to happen immediately. Can you take care of this Pres Weir or do we need an agenda item in the 18 Nov mtg and put the seating arrangement up for a vote?

In addition, from page 9 of the Board Operating Procedures (attached to this email) is below.

K. Board Sanctions Trustees are expected to comply with Board Operating Procedures, Board Policy, and other best practices to serve the best interests of the District.

In the event a Trustee violates the Board operating procedures and/or Board policy, the Board may choose: 1. To post an item for discussion regarding the Trustee on an upcoming Board agenda in closed session. During the closed session, Trustees shall discuss the concern with the Trustee, attempt to gain greater understanding, and try to resolve the matter. 2. If the Trustee continues to violate Board operating procedures and/or Board policy the Board shall place the discussion of the Trustee on another Board agenda in closed session. At this meeting, the Board may choose in open session to direct the Trustee to receive additional training designed to address the specific issue. 3. Following a third violation of Board operating procedures or Board policy, the Board: a. May choose to issue a public censure at a legally called Board meeting in open session. The censure will consist of a calmly worded statement describing the inappropriate behavior of the Trustee, an explanation of the desired behavior, and a statement of agreement by a majority of the Trustees that the behavior is inappropriate, and/or Round Rock ISD 10 Board Operating Procedures b. May choose to remove the Trustee from any Board-appointed or elected officer position or responsibility, from membership or chairmanship of a Board committee, and/or from appointment to positions outside the Board as a District representative. 4. If a Trustee violates the Board operating procedures or Board policy a fourth time, the Board of trustees may: a. Vote to withhold financial resources from the offending Trustee, such as disallowance of reimbursement for attendance at out-of-town conventions, seminars, or other District related travel, and/or b. In extreme situations, may agree to ask the offending Trustee to resign

I would never seek to deny Xiao due process so it's important we follow the process for sanction. I know of no other way to address this behavior than to immediately put step one of the Board Sanction process on the agenda regarding Xiao. No trustee should ever be made to feel unsafe. As former members of the armed forces, my husband and I are trained in threat assessment and Xiao's repeated verbal and physical behaviors all point to him escalating to violence unless he is formally addressed by THE BOARD.

Thank you Trustee Bone for being the only trustee who seems to care that I am routinely targeted by Trustee Xiao with his verbal attacks. I, my husband and others have wondered if he will escalate to a physical attack. I do not feel safe near him. But more meaningfully than that, I do not feel safe that my colleagues do not seem to care that I am a target of this man. The five of you (Weir, Feller, Harrison, Xiao and Vessa) are developing a troubling reputation of sympathizing with perpetrators and actively working against victims. This is why at the beyof yesterday's meeting, I told Marcia I would only work with you (Bone) in a small group. Cory reacted disrespectfully with her GASP when I stood up for myself. I didn't know what else she might say or do. You didn't address her then either. Pres Weir, I don't feel safe.

The five of you have spent many hours and a lot of taxpayer money putting together vicious censure resolutions against me. Meanwhile former counsel Jenny Wells was aggressive towards me on 9/22 and you all did nothing. And now Xiao is aggressive towards me (again) and you all do nothing.

Except for Bone, I am left to defend myself and the reward is a censure resolution that seeks to prohibit me from stepping foot onto campuses, change my title to "censured trustee" and prohibit me from being a board officer. I can think of nowhere else in my life where the individual who seeks to be respectful of various opinions and inclusive of all people and lawful at all times is targeted as the dangerous one that the community needs protection from. You all are out of control.

The safety of all trustees and citizens matters! Why do so many feel unsafe on your watch Pres Weir? Please spend less time doubling down on ridiculousness, less money on legal advice to harass me and more time mentoring trustees to behave respectfully and getting the entire board to be able to respect TOMA and work together.

Amy,

Please explain why Dr. Xiao's continuous angry outbursts are being tolerated by the board? His fits of uncontrolled anger are scary and inappropriate. Please let me know your plan to address this.

His latest outburst at our workshop yesterday was directed toward Trustee Weston and me and I am curious to why Trustee Weston and I were the ones that had to stop him? Why is he allowed to be so angry and especially with Trustee Weston right next to him. What if he decides to physically take out this anger? I

know I would not feel safe sitting next to him as it is obvious he is not in control of his anger.

I am requesting that I be moved to Dr. Xiao's spot on the dais by Trustee Weston for safety.

Also his rambling about not caring about TOMA was very concerning as the law is important to follow to keep the district safe, would you not agree? His outburst about TOMA made me believe he may not understand the importance so what is being done to address this?

Again please let me know what you are doing to address these issues as you seemed so concerned with other Trustee behavior that you took action.

Best Regards,
Mary Bone

[REDACTED], I appreciate your email. Please take a look at this media article from early August:

I will tell you that on 23 Jul 2021, trustee Mary Bone and I asked for a meeting to discuss concerns and allegations that came to the board in mid July. We were denied for weeks and relentlessly persisted in our demands for a special meeting which we finally got on 23 Aug 2021. Trustees Xiao and Harrison did not attend that meeting.

Since that meeting was held in closed session, I am not at liberty to share what was discussed but I will tell you that more recent events prompted trustee Bone and I to call for a second meeting regarding these concerns. We were denied for weeks but earlier this week Pres Weir finally acknowledged that a meeting is an order and I believe it is tentatively being scheduled for 10 Nov 2021.

Dear Mr. Mike Morath, RRISD Board of Trustees and RRPD,

I am writing as a concerned parent of a 13 year old female RRISD student. I noticed on the TEA website that Dr. Azaiez is under investigation for misconduct. I would like to know why he has not been placed on administrative leave while he is under investigation. Last night, at the RRISD board of trustees meeting it came to light that he currently has a restraining order against him for an alleged assault against a female. I am demanding that he be placed on administrative leave, since this puts my child and the rest of our female teachers and staff in immediate danger. What kind of precedent does this set for our children, staff and district if we allow an alleged violent criminal to keep his job while this case of this magnitude is under investigation? If this were a teacher, wouldn't they be placed on administrative leave? I am asking that the board place Dr. Azaiez on administrative leave, effective immediately. Until this is done, the board should be considered complicit in the potential endangerment of our children, staff and community.

Thank you,

Pres Weir,

This last e-mail I have regarding the Special Meeting on Dr Azaiez is from over 10 days ago. Last week I received an e-mail from Doug Ponek asking if I was available for this meeting on 10 Nov 2021 and I replied "yes".

I have not heard anything since.

Is this Special Meeting that Mary and I called for on 4 Oct 2021 being scheduled for 10 Nov 2021? The community deserves more than 72 hours of notice on this meeting so please post it by 1 Nov 2021.

The language in the agenda needs to be for ***"Discussion and Possible Action"*** on the Superintendent Contract and Employment Status." You can cite the TEA flagging of his license for assault, you can cite the extension of a TRO, you can cite concerns about his residency, whatever you like. Doug Ponek has had plenty of time to be prepared to properly shepherd this board through this process. We have followed his "two step process" advice (two meetings) and are now looking toward that second step.

In accordance with the TOMA, public comments also need to be on the agenda.

In light of the new allegations from Dr. Azaiez through his attorney against two trustees that "Dr. Azaiez is being harassed by Trustees Bone and Weston regarding personal, private matters and it needs to stop." I am requesting that this special meeting be held ASAP.

Dr. Azaiez seems to be under the impression that investigations by TEA are private. If they were truly private then there would not be a big sentence on his public certificate to tell the world. I understand the content of the investigation is private but not the investigation itself. Also Dr. Azaiez should have self-reported to the board immediately when he was told about the TEA investigation but he did not, it had to be brought to the Boards attention by community members. That in itself has not been addressed and should be. Dr. Azaiez also has the responsibility to tell the board of any meeting, interview, or etc. he has with TEA. TEA meetings are held during operational hours which means he would be on District time or need to take vacation/personal leave/etc. so either way the Board should be aware.

In regards to the restraining order it also affects his ability to perform his duties as he can not freely attend educational meetings, conferences, events, etc where the applicant is also attending unless given permission. He has not been honest with the Board about this issue and in the future should be very clear with the whole

board how his legal issues affect his ability to freely attend events and represent the District as a Superintendent should. For example Dr. Azaiez was not able to attend the recent TASA/TASB Conference due to the restraining order and then instead of telling the Board the truth he just said he was "busy". Lying to the board about this and making up an excuse needs to be addressed. It doesn't take a genius to understand how restraining orders work and since the applicant of the restraining order was present at the conference he was not able to be there without her permission.

Dr. Azaiez has now threatened two Trustees using a lawyer, saying "it needs to stop" and implying there will be consequences if "it" doesn't stop. Although no one can apparently articulate what "it" is. This threat to Trustees needs to be addressed and reconciled immediately.

I read many LightHouse reports from the community members that have a variety of concerns regarding Dr. Azaiez's allegations, TEA investigation and restraining order. The Board needs to address these community concerns that go back a couple of months.

A responsible and reasonable president that is applying good governance and has the best interest of the district in mind would call a meeting immediately to get this resolved and protect the district. I will stand by to see what you do.

Detective Griffith & Chief Yarbrough,

The board just received a second email purporting to be my likeness (see below to see today's email) . As we know, this is illegal.

In addition, community members are sending me screenshots from Twitter from an individual named Jack Chiles. I am no detective but it appears that he is taking credit for using my likeness. I assume this is very helpful for the open investigation the RRISD PD is conducting.

What are the next steps in getting a subpoena to find out where all of this is coming from?

Subject: Thank you for contacting RRISD Board of Trustees. Proposed policy - legal costs and accounting

To: Board_of_Trustees@roundrockisd.org <Board_of_Trustees@roundrockisd.org>

Good afternoon!

As we all know, Round Rock ISD has been the target of several lawsuits and negative press attention brought on by vexatious litigants, misguided community members, ambitious political hacks seeking to launch new careers (or revitalize their failed careers), and blatant grifters hoping to line their pockets. Given that there seems to be a surplus of those groups at the moment, and as one of the biggest things that those groups complain about is "fiscal responsibility," I sat down with stakeholders throughout the district (including counsel, community members, parents, students, faculty, and staff), and productive discussions were had.

As such, I would like to present the following policy, crafted with input from the aforementioned groups, to the board for their perusal.

This ties into a particular suggestion that Trustee Feller discussed at the board meeting on November 21st, in which she suggested that costs for litigation be broken out by category (FAPE suits, personnel matters, vexatious litigation, et cetera).

As a starting point, the proposed policy would read as follows:

Round Rock ISD financial / accounting staff will, on a monthly basis, provide the board with an executive summary summarizing the district's legal expenditures (excluding in-depth details for confidential or restricted matters) for the previous rolling 30-day period.

This report will be provided to the board at least 96 hours in advance of each regularly scheduled monthly board meeting in order to allow board members and relevant stakeholders time to review the content therein in a timely fashion.

This report will contain the following information for the previous rolling 30-day period:

- Approximate amount spent on legal matters pertaining to FAPE / Special Education / IEP / 504 plans / etc.

- Approximate amount spent on legal matters pertaining to HR-related matters (e.g. EEOC complaints, wrongful termination, faculty / staff disciplinary matters, etc)

- Approximate amount spent on legal matters pertaining to public policy / lobbying efforts

- Approximate amount spent on legal matters pertaining to litigation brought by community

members / trustees / vexatious litigants (not pertaining to FAPE / special education / IEP / 504 matters)

The preparer of this section will detail the approximate expenditures required by the district to defend against each case, broken out by case number.

The preparer of this section will note if outside counsel was required for each case.

Information regarding the reason behind the utilization of outside counsel (e.g. conflict of interest) may be included at the discretion of district leadership.

Examples of cases covered under this section include, but are not limited to, the following:

Litigation brought about in regards to mask mandates

Litigation brought about in regards to unprofessional conduct as exhibited by trustees (including further litigation resulting from said unprofessional conduct)

Litigation brought about in regards to abuse of office / misuse of district resources (such as utilizing district resources for personal legal efforts / investigations)

Approximate amount spent on legal matters not pertaining to one of the above topics

District counsel may, at their discretion, provide guidance or instruction on the redaction of personally identifying information (or similar) as required under relevant law.

Obviously, this is not finished or polished language and guidance. That would be something that district leadership and counsel would need to fine-tune. However, as this would provide the board and public with an executive summary of what is being spent on legal matters - as well as make the community at large aware just how much of the district's resources are being drained by frivolous lawsuits by hypocrites, vexatious litigants, and those who fail to demonstrate personal responsibility for their actions - it may be something that district leadership may wish to consider implementing going forward.

Board of Trustees,

I have recently learned from RRISD administration staff that the video of the the assault that occurred on 10/21/22 does in fact exist, but my request for access to it was denied, which is preventing me from pursuing a restraining order on the man in question. I saw that tomorrow's meeting agenda item M3 is in regards to the district and board safety and security measures, so the below information (some of it I have recently learned from RRSID staff) will be very relevant to your discussions.

The assault was committed by a white man against an Asian woman, and it occurred at ~7:15pm on 10/21/21.

Later that evening, that same man followed me, my wife and another woman as we left the meeting. Once outside, he proceeded to verbally harass and intimidate us at the bottom of the steps outside of the bldg 100 entrance.

Chief Yarbrough was made aware of the incidents via an email on 10/25/21. He directed us to setup an appointment with RRISD PD Officer Marquez for us to provide official statements. In that email to Chief Yarbrough, I requested that all video evidence be retained.

On 10/29/21, I went in person with the victim and two other witnesses to provide official written statements to Officer Marquez. During that meeting, Officer Marquez assured us that all video evidence related to these two incidents would be retained.

We also discussed with Officer Marquez that we observed a pattern of behavior by some community members that had become increasingly aggressive towards us and some of our friends at board meetings in recent weeks and months, and that a number of women were feeling afraid to walk to their cars at night during and after the meetings because of this.

Officer Marquez was given the name of two known associates that the assailant spoke with that evening, one of which spoke during public comment that night, and had her arm around him while they sat together in the front row. The other woman attends almost every board meeting. Identifying this man should have been relatively easy.

The woman who was assaulted stated that she did not want to press charges because she feared this man would find her address and come to her home and harm her or her child, and she also stated that she is now too afraid to come back to a school board meeting. She has not been back to a board meeting since that incident on 10/21/21.

I have attached an audio clip of her stating this during the meeting with Officer Marquez. All parties in that meeting were aware that I was recording the meeting. This is a snippet of the recording of the entire meeting

You'll also notice that she mentions that she believes she saw this man at the September meeting (at McNeil PAC) and he was shouting at her outside.

I have recently learned from district staff that the video footage of the incident outside bldg 100 had somehow been determined to have no evidentiary value, so contrary to what Officer Marquez told us would happen, it was not retained.

My statement, and the statement of one of the other women, described the incident outside and pointed out that it was the same man that committed the assault, so why would it not have evidentiary value?

Who decided this, and why was the video of the second incident not retained since both incidents were committed by the same man within an hour or two of each other?

From information provided by a RRISD staff attorney, I have learned that the district has a policy to maintain video surveillance footage for "approximately 30 days," but I am unable to find this policy on the district website.

Does this policy truly exist, and is it 30 days, or approximately 30 days??

How is RRISD video surveillance stored? Local hard drive/server, or cloud server?

Is the video overwritten, or is it manually or automatically deleted?

If it is manually deleted, who is responsible for deleting it?

I have also been informed that the video is part of an ongoing investigation, but here we are four months later, and this man continues to attend the board meetings. I am quite sure that with the available evidence and multiple eye witness testimonies, that at least a trespass warrant could be issued to deter this man from committing another act of violence.

My calls to look into this assault have largely been ignored, opening up the the district to significant risk regarding the safety and security of our students, community members, and trustees at board meetings. I am having trouble understanding why there seems to be a trend of high-level RRISD leaders and elected officials ignoring incidents of violence and intimidation against women. This now seems to be a RRISD pattern of willful ignorance.

I hope that all of you will you call for RRISD PD to take action to issue a trespass warning against this man. I am glad to see safety and security on the agenda for tomorrow, and I hope that you will use the information above in your safety and security discussions.

I also ask you to consider a full investigation to understand the inaction of RRISD PD to prevent this man from further harm and intimidation of women and community members, and to find out who made the decision that the video of the secondary incident was not of evidentiary value.

Respectfully,

Dustin Clark

Amber,

I'm glad Ms Steir sent is this email because it reminds me of the false statement put out to the media by the board officers (Feller, Weir and Harrison) in August 2021. District resources were used to provide that statement. This false statement continues to confuse/mislead members of the community about what the board knew and when then the members knew it. I know of no other remedy to address board officers lying to the media in their official capacity than to initiate the board sanction process. Thus, per our board operating procedures and BBF Local on Board Ethics (attached), please include the following on the 20 Jan 2022 agenda:

Discussion and possible action to initiate item K1 in the board sanction process on Trustee Feller in violation of "Honor in Conduct: I will tell the truth." in BBF Local.

Discussion and possible action to initiate item K1 in the board sanction process on Trustee Weir in violation of "Honor in Conduct: I will tell the truth." in BBF Local.

Discussion and possible action to initiate item K1 in the board sanction process on Trustee Harrison in violation of "Honor in Conduct: I will tell the truth." in BBF Local.

It is disheartening that Dr. Bone and Ms. Weston have put out a press release based on unsubstantiated information.

I am a strong believer in protecting women and their rights. This is not the issue. If someone is guilty of crimes against women, that person should be held responsible. The issue at hand is that you have misused your positions when you sent out your press release without substantiating this allegation. You knew you would create a "guilty until proven innocent" situation.

I truly hope you are never put in a similar situation.

I would like to thank those of you on the board for their efforts to publicize a response to these two board members. I, and many of the teachers I've spoken with, would like to echo the sentiments written here:

It is incredibly disappointing that two fellow Trustees have broken with Board policy and are participating in the dissemination of rumors, which, despite being circulated among certain community members, have not resulted in any reports to or charges

from law enforcement. The letter provided by Trustees Bone and Weston included inaccurate information - the full Board has not received any claims of assault or domestic violence from any alleged victim. This Board has also received no reports from any law enforcement entity indicating charges have been filed. What has been shared are unsubstantiated rumors from community members. We are monitoring the situation for changes if any. If a meeting is needed, it will be scheduled when all Trustees are available.

Sincerely,
Alison Steir

Detective Griffith,

This email is regarding the open criminal investigation that I have with RRISD PD regarding the concerns I have regarding my safety and crimes that have been committed against me in the case you are working on.

Please see email below. More concerns about Jack Chiles. This community member is asserting that we have a Trustee who knows who he is or may be able to help in contacting him.

All - just a heads up that jack chiles has been posing online with different names. I propose that all online speakers be required to show a live picture in order to speak. Jack chiles has been doxxing parents, posting aggressive, hostile and harassing comments online to cause strife in our community. Jack is connected to at least one RRISD employee that has also been engaging in unethical behavior not only in rrisd but lisd. It's notable that trustee Harrison is associated to jack chiles not only personally but follows his Tuxedo_jack twitter account. I find it ironic that she supports a no hate resolution while simultaneously engaging with people like jack chiles.

It's also notable that after a Asian women was assaulted outside a board meeting, nothing happened. Multiple emails went out to the board, superintendent and chief of police but all went without any action. Further, trustee Xiao did nothing to condemn this behavior. Until the board leadership stands up to all issues of violence and harassment then the trolls will continue to act without impunity.

Thank you
Ricci

Examples of cases covered under this section include, but are not limited to, the following:

Litigation brought about in regards to mask mandates

Litigation brought about in regards to unprofessional conduct as exhibited by trustees (including further litigation resulting from said unprofessional conduct)

Litigation brought about in regards to abuse of office / misuse of district resources (such as utilizing district resources for personal legal efforts / investigations)

Approximate amount spent on legal matters not pertaining to one of the above topics

District counsel may, at their discretion, provide guidance or instruction on the redaction of personally identifying information (or similar) as required under relevant law.

Obviously, this is not finished or polished language and guidance. That would be something that district leadership and counsel would need to fine-tune. However, as this would provide the board and public with an executive summary of what is being spent on legal matters - as well as make the community at large aware just how much of the district's resources are being drained by frivolous lawsuits by hypocrites, vexatious litigants, and those who fail to demonstrate personal responsibility for their actions - it may be something that district leadership may wish to consider implementing going forward.

The board just received a second email purporting to be my likeness (see below to see today's email) . As we know, this is illegal.

In addition, community members are sending me screenshots from Twitter from an individual named Jack Chiles. I am no detective but it appears that he is taking credit for using my likeness. I assume this is very helpful for the open investigation the RRISD PD is conducting.

What are the next steps in getting a subpoena to find out where all of this is coming from?

Subject: Thank you for contacting RRISD Board of Trustees. Proposed policy - legal costs and accounting

To: Board_of_Trustees@roundrockisd.org <Board_of_Trustees@roundrockisd.org>

Good afternoon!

As we all know, Round Rock ISD has been the target of several lawsuits and negative press attention brought on by vexatious litigants, misguided community members, ambitious political hacks seeking to launch new careers (or revitalize their failed careers), and blatant grifters hoping to line their pockets. Given that there seems to be a surplus of those groups at the moment, and as one of the biggest things that those groups complain about is "fiscal responsibility," I sat down with stakeholders throughout the district (including counsel, community members, parents, students, faculty, and staff), and productive discussions were had.

As such, I would like to present the following policy, crafted with input from the aforementioned groups, to the board for their perusal.

This ties into a particular suggestion that Trustee Feller discussed at the board meeting on November 21st, in which she suggested that costs for litigation be broken out by category (FAPE suits, personnel matters, vexatious litigation, et cetera).

As a starting point, the proposed policy would read as follows:

Round Rock ISD financial / accounting staff will, on a monthly basis, provide the board with an executive summary summarizing the district's legal expenditures (excluding in-depth details for confidential or restricted matters) for the previous rolling 30-day period.

This report will be provided to the board at least 96 hours in advance of each regularly scheduled monthly board meeting in order to allow board members and relevant stakeholders time to review the content therein in a timely fashion.

This report will contain the following information for the previous rolling 30-day period:

- Approximate amount spent on legal matters pertaining to FAPE / Special Education / IEP / 504 plans / etc.

- Approximate amount spent on legal matters pertaining to HR-related matters (e.g. EEOC complaints, wrongful termination, faculty / staff disciplinary matters, etc)

- Approximate amount spent on legal matters pertaining to public policy / lobbying efforts

- Approximate amount spent on legal matters pertaining to litigation brought by community

members / trustees / vexatious litigants (not pertaining to FAPE / special education / IEP / 504 matters)

The preparer of this section will detail the approximate expenditures required by the district to defend against each case, broken out by case number.

The preparer of this section will note if outside counsel was required for each case.

Information regarding the reason behind the utilization of outside counsel (e.g. conflict of interest) may be included at the discretion of district leadership.

Examples of cases covered under this section include, but are not limited to, the following:

Litigation brought about in regards to mask mandates

Litigation brought about in regards to unprofessional conduct as exhibited by trustees (including further litigation resulting from said unprofessional conduct)

Litigation brought about in regards to abuse of office / misuse of district resources (such as utilizing district resources for personal legal efforts / investigations)

Approximate amount spent on legal matters not pertaining to one of the above topics

District counsel may, at their discretion, provide guidance or instruction on the redaction of personally identifying information (or similar) as required under relevant law.

Obviously, this is not finished or polished language and guidance. That would be something that district leadership and counsel would need to fine-tune. However, as this would provide the board and public with an executive summary of what is being spent on legal matters - as well as make the community at large aware just how much of the district's resources are being drained by frivolous lawsuits by hypocrites, vexatious litigants, and those who fail to demonstrate personal responsibility for their actions - it may be something that district leadership may wish to consider implementing going forward.

Usually I will simply ignore my fellow Trustee's relentless and obsessive pursuit of self-importance; any integrity she once had had long been thrown out of the window for the pursuit of power and fame. She and her partner on the board are highly allergic to shame and show absolutely no remorse.

I am not of any help when teachers, staff, and admins are harassed and intimidated with conjured up accusations. That made me want to leave my seat in better hands.

But sometimes one just can't take it.

Trustee Weston not only wants to use RRISD PD to take actions, but "want criminal charges filed against this perpetrator ... work with the county attorney's office to obtain subpoenas to conduct an investigation." What's next? Ask donations on FB to put up a reward for a manhunt of this prankster who picked up your expired domain?

<https://www.electdanielleweston.com/>

Speaking of the FB page, the very first sentence "... won a seat on the Round Rock ISD Board of Trustees with 54% of the vote...more than any of the 11 candidates who ran in 2020." I'm not sure where the "more than any" comes from. Comparing candidates with 2 or 3 opponents on percentage?

At the very least, Dunning-Kruger effect is in full public display. Not a lawyer, pretending to be an expert in law along with folks who just want to stir distrust and chaos for political gains. Not a doctor, calling public health experts fools along with folks who believe microchips and nano-razors in vaccines. Not an educator, attacking teachers one way or the other along with folks who denounce public school's 'indoctrination' and 'horrific crimes on children'.

Veteran, yes. Used it like a jail free card at every turn.

It's just as bizarre as a wild comedy.

To: Board_of_Trustees@roundrockisd.org <Board_of_Trustees@roundrockisd.org>

Good evening!

I'm sure that you've spoken to counsel (as well as RRISD police, Round Rock police, and the Williamson County sheriff) about the persistent illegal activities performed on district property (and on camera, no less) by the scofflaws Jeremy Story, Dustin Clark, April Brinson, and Michelle Evans (who, as of this morning, launched a political campaign for the Texas House, which will, no doubt, involve dragging RRISD through the mud in order to further her own twisted agenda).

In light of yesterday's actions (which would normally merit a ticket for the noise violations without a permit, plus the use of school property for a rally - no doubt without district approval, excepting perhaps the trustee with whom they very visibly coordinate their actions), might I propose the following policy for the board's approval?

"Parents or community members involved in litigation against the district are not permitted to be on district property for any reason during the duration of their litigation without express written permission from RRISD campus or district leadership.

Should an affected individual wish to attend an on-campus school function, the affected individual must apply to the building principal or RRISD police for a one-time waiver, which may be granted at the discretion of the building principal or RRISD police. Each event that an affected individual wishes to attend requires a separate waiver approved by the building principal or RRISD police. Should an affected individual wish to attend a board meeting, they must do so virtually via the provided livestream (per Texas Open Meetings Act requirements).

Should an affected individual wish to comment in the public commentary section of a board meeting, they may only do so via Zoom, conference call, or other virtual means.

Parent-teacher conferences for parents affected by this policy will be performed via teleconference.

Should an affected individual be required to be on campus for a matter regarding litigation, they must inform the building principal, administrative staff, or RRISD police at least 72 hours ahead of time in writing (either physically or electronically).

Penalties for individuals who violate this policy include, but are not limited to:

Criminal charges filed with the relevant authorities

Permanent bans from district property"

Considering that they willingly break TEC 37.23, 37.107, Round Rock noise / protest ordinances (14-212, 14-213, 14,215, and more), as well as TPC 38.13 (as Jeremy Story and Dustin Clark well know), it would be remiss not to suggest that the district implement something similar to the above in order to preserve both an orderly, threat-free environment for board meetings as well as to ensure the safety of commentators, attendees (multiple community members have come to me with stories about how they have been threatened and intimidated at board meetings by Ricci Nelson, Dustin Clark, and other members of both current and pending litigation against the district), students, and staff (I personally have seen messages from RRISD staff sent to employees stating that they should not be near the administration building during times when these individuals are present due to constant threats, intimidation, and harassment).

I do hope that the district will take the above suggestions to heart and consider implementing a solution that aids in the safety and well-being of community members who have legitimate interests to advance the outcomes of RRISD students, faculty, and staff instead of bowing to radical extremists at the beck and call of scofflaws and their mistresses.

As to my bona fides, since several trustees will (no doubt) question them, I'm an Austin resident zoned for Round Rock ISD since 2014 (and living in Round Rock and Austin since 2008). I'm married to an RRISD employee who has been directly impacted by the decisions the board has made (most grievously by the mask mandate's lack of enforcement / penalties), and I'm friends with quite a few RRISD employees. I should also mention - though I have no doubt you've noticed already - my e-mail address; all I have to say about that is "whoopsie-doodle."

Wishing the five reasonable and sane board members all the best (and saying "bless your heart" to the other two), I remain,

Good afternoon Mr. Black,

Firstly, thank you for coming to Round Rock ISD to monitor our Board of Trustees. As I'm sure you're aware, our district and its elected trustees are at the center of quite a few controversies and I'm optimistic that close guidance will help right the ship, so to speak.

Second, I have a question about the ethical guidelines as they related to elected Trustees' use of social media on their official candidate/official pages. Below you will see a screen shot from Dr. Jun Xiao's Trustee Facebook page in which he links a website, additional screen shots from that site are also linked. The website solicits donations for a political candidate for Texas Legislature, and Dr. Xiao appears to be supporting or endorsing this site. Is this an ethical violation, in your professional opinion.

To put it further into context, the person the runs that website is linked to an alleged assault on 10/21 and serious claims of online bullying/harassment of community members/trustee Bone/trustee Westin. The online harassment was so bad I had to file a police report and fear for my personal safety. These concerns have been reported to the board, superintendent and Chief Yarbrough but no action or investigation has been taken. Myself and Dustin Clark did an open records request for video of the alleged assault shortly after the encounter but we're just informed nearly twice months later that no video was available. We both reached out to the same group mentioned above asking for an explanation and again silence. Was it deleted? Are the cameras not operational? What are they hiding?

With all the being said, I'm requesting a censure of trustee Xiao, deleting of the fb post and a public apology that explains his violations of his code of ethics. I will be following up with a level 3 complaint with rrisd, tea and Texas ethics commission complaints as I'm confident trustee Xiao violated campaign finance laws as well.

I look forward to your prompt reply,
Ricci Nelson

This photo was sent anonymously to one of our parents. The shoes in the picture were part of a display at a rrisd school. We are trying to find out what school but this is completely unacceptable. This narrative being pushed by at least one trustee is blatantly false but also very dangerous. It's also ironic the trustee backing this narrative also uses the police to protect her because she feels "unsafe". This rhetoric must stop and it must stop from the top. You the trustees must put a stop to all of the hate, division and focus on what these kids have lost. I hope an investigation is opened immediately into this display and someone is held accountable. I personally am disgusted that not one of the 5 condoned the racist and divisive comments directed at community members at last months meeting.

I am deeply concerned about this dangerous situation. Things appear to be escalating. Please keep the board informed.

Trustees Feller, Vessa, Bone, and Weston, and Chief Yarbrough and Dr. Presley,

We are requesting RRISD PD and the RRISD Administration immediately issue a trespass warning against the man who assaulted an Asian woman at the 10/21/21 board meeting. Later that evening he followed me and my wife outside and verbally harassed us, and last night (2/17/22) he made an aggressive and inappropriate hand gesture to another woman during the board meeting. His behavior towards women and other community members continues to be aggressive and was physical on 10/21/21. We request that this trespass warning be issued before the next board meeting, in the interest of public safety. I have made repeated requests for the video surveillance footage that have been denied, and I've sent multiple emails expressing concern for the violence and intimidation this individual has engaged in, yet my pleas have been met with silence.

Despite video surveillance footage, eye witness statements, and providing the assailants known associates to RRISD PD Officer Marquez on 10/29/21, the department has failed to investigate and identify the man responsible for the assault. This has allowed him to continue to attend the board meetings, which has intimidated the victim and others into not attending board meetings.

This inaction will not continue any longer. We have identified the man for you, and we are confident his name is Mark Costenbader. Attached are photos and videos of the man to confirm this.

The picture with two individuals sitting next to each other is the assailant (circled in red), who we have identified as Mark Costenbader, and next to him is a woman named Lindsey Ledyard. This is a picture of the two of them sitting at the 10/21/21 board meeting in the front row. The night of the assault, this man went straight to a woman named Jenn Brown standing in the hallway, and he stayed and spoke with her for an extended period of time. The names of these two women were given to Officer Marquez when we gave him our official statements on 10/29/21.

Last night during the meeting, he socialized with a woman named Ginny Gustin. If RRISD PD needs to further confirm this man's name, you can easily reach out to one of these three women who regularly attend and speak at the board meetings and are known to associate with him.

Other pictures are of Mark Costenbader. Christie, Ricci, and I all identify the assailant and the man at the meeting last night (2/17/22) as being the man in these pictures.

The video is of Christie Slape confronting the man at last night's board meeting, to confirm that it was the same man that committed the assault on 10/21/21.

We do not want this to become another national news story of the district sweeping violence against women under the rug. On 10/29/21, we reported this crime to RRISD PD and the district administration, and also provided his known associates. Today, I am providing further picture and video evidence to confirm this man's identity. We have been more than patient. Women in the RRISD community should not continue to fear for their safety at school board meetings because of this man. The safety and security of the RRISD community is a top priority for us, as I'm sure it is for you, so we expect a prompt response on the actions being taken in this matter. If we do not receive a response by 8pm on Monday, 2/21/22, we will assume there is no action being taken, and we will begin to take other measures to expose this matter.

Please let us know if you have further questions about the pictures and video provided, or if you need additional statements from last night's events.

Respectfully,

Dustin Clark
